TABLE OF CONTENTS

1.0 INTRODUCTION, PURPOSE AND NEED 1.1
1.1 The Project Proponent and Contact Information 1.1
1.2 Development, Operation, and Management of the Project 1.3
1.3 Project Purpose, Need, and Justification 1.6
1.3.1 The Mining Industry in Canada and Ontario 1.6
1.3.2 Purpose of the Project 1.7
1.4 Project Location 1.7
1.4.1 Legal Description of Land Holdings 1.7
1.5 Project Phases and Schedule 1.9
1.6 Applicable Environmental Assessment Legislation 1.11
1.6.1 Canada 1.11
1.6.1.1 Canadian Environmental Assessment Act (CEAA) 2012 ..... 1.12
1.6.2 Ontario 1.12
1.6.2.1 Ministry of Natural Resources and Forestry MNRF Class EA for Resource Stewardship and Facility Development Projects 1.13
1.7 Other Permits, Approvals, and Authorizations 1.14
1.8 Aboriginal and Treaty Rights 1.20
1.9 Report Organization 1.21
1.9.1 Technical Support Documents 1.23
1.10 References 1.25

2.0 APPROACH TO THE PREPARATION OF THE EIS 2.1
2.1 Environmental Assessment as a Planning and Design Tool 2.1
2.2 Aboriginal Engagement and Public Consultation 2.4
2.2.1 Aboriginal Engagement 2.4
2.2.1.1 Introduction 2.4
2.2.1.2 Aboriginal Engagement Requirements 2.5
2.2.2 Public Consultation 2.6
2.2.2.1 Introduction 2.6
2.2.2.2 Public Consultation Requirements 2.6
2.3 Government Agency Consultation 2.7
2.3.1 Introduction 2.7

2.3.2 Agencies Consulted 2.7
2.4 Environmental Assessment Framework 2.7
2.4.1 Environmental Components and Valued Components 2.8
2.4.2 Temporal and Spatial Boundaries 2.9
2.4.3 Project Alternatives and Evaluation Criteria 2.9
2.4.4 Project Components, Works, and Activities 2.10
2.4.5 Significance Assessment Criteria and Effects Levels 2.10
2.4.6 Summary of the EA Framework 2.11
2.5 Use of Information 2.15
2.5.1 Existing Information 2.15
2.5.2 Field Investigations and Scientific Studies 2.15
2.5.3 Aboriginal Traditional Knowledge 2.15
2.5.4 Confidential Information 2.16
2.6 References 2.17

3.0 PROJECT SETTING AND CONTEXT 3.1
3.1 History and Status of the Magino Property and Surrounding Area 3.1
3.2 Nature of the Deposit 3.4
3.3 Project Setting 3.7
3.3.1 Atmospheric Environment 3.7
3.3.2 Physical Environment 3.8
3.3.3 Biological Environment 3.8
3.3.4 Social Environment 3.10
3.3.5 Economic Environment 3.11
3.3.6 Aboriginal Interests 3.12
3.4 References 3.15

4.0 EXISTING CONDITIONS 4.1
I. Introduction 4.1
II. Preamble 4.1
III. IRC-7 Response 4.2
1. Introduction 4.2
IV. IRC 8 Response 4.13
1. Introduction 4.13

2. Sampling Approach 4.13
2.1 Aquatic Habitat Characterization 4.13
2.2 Fish Habitat Characterization 4.14
2.3 Electrofishing Raft 4.15
2.4 Backpack Electrofishing 4.15
2.5 Gill Netting 4.16
3. Figures 4.16
4.1 Atmospheric Environment 4.38
4.1.1 Spatial Boundaries 4.38
4.1.2 Field Investigations and Analytical Methods 4.41
4.1.3 Climate 4.53
4.1.3.1 Description of Existing Conditions 4.53
4.1.3.1.1 Precipitation 4.53
4.1.3.1.2 Temperature 4.54
4.1.4 Meteorology 4.55
4.1.4.1 Wind 4.55
4.1.4.2 Temperature 4.57
4.1.4.3 Precipitation 4.57
4.1.5 Air Quality 4.58
4.1.6 Noise 4.59
4.1.7 Light 4.59
4.1.7.1 Light Trespass 4.60
4.1.7.2 Sky Glow 4.60
4.1.8 Vibration 4.60
4.1.9 Greenhouse Gases 4.61
4.1.9.1 Description of Existing Conditions 4.61
4.2 Physical Environment 4.61
4.2.1 Spatial Boundaries 4.61
4.2.2 Field Investigations and Analytical Methods 4.64
4.2.3 Terrain and Topography 4.70
4.2.4 Quaternary Geology 4.72
4.2.4.1 Regional and Local Study Areas 4.72
4.2.4.1.1 Surficial Geology and Soils 4.72
4.2.4.2 Project Study Area 4.72
4.2.4.2.1 Surficial Geology and Soils 4.72

4.2.4.2.2 Analytical Testing Results for PSA Soils....4.77
4.2.4.2.3 Analytical Testing Results for Historic Area Soils....4.80
4.2.4.2.4 Hydraulic Conductivity....4.81
4.2.5 Bedrock Geology....4.81
4.2.5.1 Regional and Local Study Areas....4.81
4.2.5.1.1 Bedrock Geology and Structure....4.81
4.2.5.2 Project Study Area....4.83
4.2.5.2.1 Bedrock Geology and Structure....4.83
4.2.5.2.2 Hydraulic Conductivity....4.85
4.2.6 Geochemistry....4.89
4.2.6.1 Project Study Area....4.90
4.2.6.1.1 Static ABA Results....4.91
4.2.6.1.2 Whole Rock Metals Analyses....4.93
4.2.6.1.3 Metal Leaching Potential....4.93
4.2.6.1.4 Humidity Cell Analysis....4.95
4.2.6.1.5 Field Cell Testing....4.96
4.2.6.1.6 Ore and Tailings Characterization....4.100
4.2.6.2 Other Information Relevant to the Potential for ARD....4.101
4.2.6.3 Pending Results and Future Study....4.102
4.2.7 Groundwater....4.103
4.2.7.1 Project Study Area....4.103
4.2.7.1.1 Groundwater Levels and Flow....4.103
4.2.7.1.2 Groundwater Quality....4.108
4.2.8 Surface Water Hydrology....4.111
4.2.8.1 Regional, Local and Project Study Areas....4.111
4.2.8.1.1 Runoff....4.111
4.2.8.1.2 Stream Flows....4.113
4.2.8.1.3 Lake Water Levels....4.117
4.2.9 Surface Water Quality....4.120
4.2.9.1 Regional Study Area....4.122
4.2.9.1.1 Dreany Lake....4.122
4.2.9.1.2 Mountain Lake....4.123
4.2.9.1.3 Herman Creek, Goudreau Creek and McVeigh Creek....4.123

4.2.9.2 Local Study Area and Project Study Area 4.124
4.2.9.2.1 Herman-Otto Subwatershed 4.124
4.2.9.2.2 Spring-Lovell Subwatershed 4.124
4.2.9.2.3 Webb-Goudreau Subwatershed 4.125
4.2.9.2.4 Summary 4.126
4.2.10 Stream and Lake Sediments 4.128
4.2.10.1 Regional Study Area 4.128
4.2.10.2 Local Study Area and Project Study Area 4.129
4.2.10.2.1 Herman-Otto Subwatershed 4.129
4.2.10.2.2 Spring-Lovell Subwatershed 4.130
4.2.10.2.3 Webb-Goudreau Subwatershed 4.132
4.2.10.3 Summary 4.132
4.3 Biological Environment 4.134
4.3.1 Spatial Boundaries 4.134
4.3.2 Field Investigations and Analytical Methods 4.135
4.3.3 Natural Heritage Features 4.140
4.3.4 Fish and Fish Habitat 4.143
4.3.4.1 Regional Study Area 4.143
4.3.4.1.1 Mountain Lake 4.143
4.3.4.1.2 Dreany Lake 4.144
4.3.4.2 Local Study Area 4.145
4.3.4.2.1 Herman-Otto Watershed 4.147
4.3.4.2.2 Spring-Lovell Watershed 4.148
4.3.4.2.3 Surface Water and Sediment Quality 4.150
4.3.4.2.4 Web-Goudreau Watershed 4.151
Surface Water and Sediment Quality 4.151
4.3.4.3 Project Study Area 4.153
4.3.4.3.1 Herman-Otto Watershed 4.155
4.3.4.3.2 Spring-Lovell Watershed 4.169
4.3.4.3.3 Webb-Goudreau Watershed 4.192
4.3.5 Terrestrial Vegetation 4.200
4.3.5.1 Regional Study Area 4.200
4.3.5.2 Local Study Area 4.202
4.3.5.2.1 Herman–Otto Subwatershed 4.202
4.3.5.3 Project Study Area 4.208

4.3.5.4 Plants of Special Interest to Indigenous Communities....4.210
4.3.6 Wetlands....4.212
4.3.6.1 Regional Study Area....4.212
4.3.6.2 Local Study Area....4.213
4.3.6.2.1 Herman–Otto Watershed....4.213
4.3.6.2.2 Spring–Lovell Watershed....4.215
4.3.6.3 Project Study Area....4.219
4.3.7 Significant Wildlife Habitat....4.221
4.3.7.1 Regional Study Area....4.222
4.3.7.2 Local Study Area....4.223
4.3.7.3 Project Study Area....4.226
4.3.8 Migratory and Breeding Birds....4.228
4.3.8.1 Regional Study Area....4.228
4.3.8.1.1 Raptors....4.228
4.3.8.1.2 Passerines and Other Upland Nesting Birds....4.229
4.3.8.1.3 Marsh Birds....4.229
4.3.8.1.4 Waterfowl....4.230
4.3.8.2 Local Study Area....4.231
4.3.8.2.1 Herman–Otto Subwatershed....4.231
4.3.8.2.2 Spring–Lovell Subwatershed....4.232
4.3.8.2.3 Webb-Goudreau Subwatershed....4.233
4.3.8.3 Project Study Area....4.233
4.3.9 Mammals....4.237
4.3.9.1 Regional Study Area....4.237
4.3.9.1.1 Beaver....4.237
4.3.9.1.2 Moose....4.238
4.3.9.1.3 Black Bear....4.238
4.3.9.1.4 Marten....4.239
4.3.9.1.5 Red Fox....4.240
4.3.9.1.6 Wolf....4.240
4.3.9.1.7 Lynx....4.240
4.3.9.1.8 Red Squirrel....4.240
4.3.9.1.9 Snowshoe Hare....4.240
4.3.9.1.10 Star-nosed Mole....4.241
4.3.9.1.11 Bats....4.241

4.3.9.2 Local Study Area 4.242
4.3.9.2.1 Herman – Otto Subwatershed 4.242
4.3.9.2.2 Spring – Lovell Subwatershed 4.242
4.3.9.2.3 Webb-Goudreau Subwatershed 4.243
4.3.9.3 Project Study Area 4.244
4.3.10 Species at Risk 4.246
4.3.10.1 Regional Study Area 4.246
4.3.10.1.1 Whip-Poor-Will 4.246
4.3.10.1.2 Common Nighthawk 4.247
4.3.10.1.3 Olive-sided Flycatcher 4.247
4.3.10.1.4 Bald Eagle 4.247
4.3.10.1.5 Canada Warbler 4.248
4.3.10.1.6 Chimney Swift 4.248
4.3.10.1.7 Northern Long-Eared Bat 4.248
4.3.10.1.8 Little Brown Bat 4.248
4.3.10.2 Local Study Area 4.249
4.3.10.2.1 Herman – Otto Subwatershed 4.249
4.3.10.2.2 Spring – Lovell Subwatershed 4.249
4.3.10.2.3 Webb-Goudreau Subwatershed 4.249
4.3.10.3 Project Study Area 4.249
4.4 Social Environment 4.252
4.4.1 Spatial Boundaries 4.252
4.4.2 Field Investigations and Methods 4.257
4.4.3 Overview of Communities/Context 4.257
4.4.3.1 Dubreuilville 4.258
4.4.3.2 Wawa 4.259
4.4.3.3 White River 4.260
4.4.3.4 Hawk Junction 4.260
4.4.3.5 Goudreau 4.261
4.4.3.6 Lochalsh 4.261
4.4.4 Population and Demographics 4.261
4.4.4.1 Population Levels and Mobility 4.261
4.4.4.1.1 Population Levels 4.261
4.4.4.1.2 Mobility 4.265
4.4.4.2 Population Demographics 4.268
4.4.4.2.1 Age Structure 4.268

4.4.4.2.2 Median Age....4.271
4.4.4.2.3 Language....4.271
4.4.4.2.4 Aboriginal Identity....4.273
4.4.5 Community Vitality....4.274
4.4.5.1 Recreation and Leisure....4.274
4.4.5.1.1 Dubreuilville....4.275
4.4.5.2 Community Character....4.277
4.4.5.2.1 Dubreuilville....4.277
4.4.5.2.2 Wawa....4.277
4.4.5.2.3 White River....4.277
4.4.5.3 Community Facilities and Services....4.277
4.4.5.3.1 Recreational Facilities and Programs....4.277
4.4.5.3.2 Schools....4.279
4.4.5.3.3 Community Organizations and Events....4.280
4.4.5.4 Health and Social Services....4.282
4.4.5.4.1 Dubreuilville....4.282
4.4.5.5 Adult Education and Training....4.284
4.4.5.5.1 Post-Secondary Education and Training Opportunities....4.284
4.4.5.5.2 Educational Attainment....4.284
4.4.6 Infrastructure and Services....4.286
4.4.6.1 Housing....4.286
4.4.6.1.1 Dubreuilville....4.286
4.4.6.1.2 Wawa....4.287
4.4.6.1.3 White River....4.287
4.4.6.2 Emergency Services....4.291
4.4.6.2.1 Police....4.291
4.4.6.2.2 Fire....4.291
4.4.6.2.3 Emergency Medical Services....4.292
4.4.6.3 Utilities....4.293
4.4.6.3.1 Dubreuilville....4.293
4.4.6.3.2 Wawa....4.293
4.4.6.3.3 White River....4.293
4.4.6.4 Transportation....4.294
4.4.6.4.1 Local Study Area....4.294

4.4.6.4.2 Dubreuilville 4.294
4.4.6.4.3 Wawa 4.294
4.4.6.4.4 White River 4.295
4.4.6.5 Communications 4.295
4.4.6.6 Energy Supply 4.296
4.4.7 Cultural Heritage 4.296
4.5 Economic Environment – Existing Conditions 4.297
4.5.1 Spatial Boundaries 4.297
4.5.1.1 Regional Study Area (RSA) 4.297
4.5.1.2 Primary Communities 4.298
4.5.1.3 Project Study Area (PSA) 4.298
4.5.1.4 Local Study Area (LSA) - Selected Social and Economic VC/Indicators 4.298
4.5.2 Field Investigations and Methods 4.302
4.5.2.1 Data Sources 4.302
4.5.3 Land Use and Tourism 4.302
4.5.3.1 Land Ownership/Tenure 4.302
4.5.3.2 Mining 4.303
4.5.3.2.1 Mining in the PSA 4.303
4.5.3.2.2 Mining in the LSA 4.303
4.5.3.2.3 Mining in the Primary Communities 4.305
4.5.3.3 Forestry 4.307
4.5.3.3.1 Magpie Forest 4.307
4.5.3.3.2 Mill Operations in the Primary Communities 4.307
4.5.3.4 Commercial Tourism and Recreation 4.308
4.5.3.5 Commercial Trapping 4.308
4.5.3.6 Parks and Protected Areas 4.308
4.5.3.7 Other Land Uses 4.311
4.5.4 Employment and Business Opportunities 4.311
4.5.4.1 Employment and Wage Income 4.311
4.5.4.1.1 Employment 4.312
4.5.4.1.2 Income 4.315
4.5.4.2 Labour Supply 4.316
4.5.4.2.1 Workforce by Industry 4.317
4.5.4.2.2 Workforce by Occupation 4.321

4.5.4.2.3 Algoma/Superior East Labour Force 4.325
4.5.4.3 Business Activity 4.326
4.5.4.3.1 Dubreuilville 4.326
4.5.4.3.2 Wawa 4.327
4.5.4.3.3 White River 4.327
4.5.4.3.4 Region 4.328
4.5.5 Government Revenues 4.328
4.5.5.1 Municipal Revenues 4.328
4.5.5.1.1 Dubreuilville 4.328
4.5.5.1.2 Wawa 4.328
4.5.5.1.3 White River 4.329
4.5.5.2 Provincial Revenues 4.329
4.6 Aboriginal Interests 4.332
4.6.1 Spatial Boundaries 4.332
4.6.2 Field Investigations and Methods 4.335
4.6.2.1 Census Data 4.335
4.6.2.2 Traditional Knowledge Studies/Traditional Land Use Studies 4.336
4.6.3 Aboriginal Groups 4.336
4.6.3.1 Michipicoten First Nation 4.336
4.6.3.1.1 Background 4.336
4.6.3.1.2 MFN Vision and Community Planning 4.337
4.6.3.1.3 Demographic Trends 4.339
4.6.3.2 Missanabie Cree First Nation 4.342
4.6.3.2.1 Background 4.342

5.0 EVALUATION OF ALTERNATIVES....5.1
I. Introduction....5.1
II. Preamble....5.1
5.1 Alternatives to the Project....5.2
5.2 Mine Waste Disposal Alternatives Evaluation....5.2
5.2.1 Alternatives Assessment for Mine Waste Disposal Alternatives....5.2
5.2.2 Water Bodies Frequented by Fish Impacted by the Proposed Site Layout....5.2
5.3 Alternative Methods....5.6
5.3.1 Identification and Description of Alternative Methods for the Project....5.6

5.3.1.1 Mine Development....5.8
Underground Mining....5.8
Open Pit Mining....5.9
5.3.1.2 Ore Processing....5.9
Heap Leaching on a Lined Pad....5.9
Non-Cyanide Processing Methods....5.10
Process by Milling and Cyanide Leaching including a Cyanide Destruction Circuit....5.10
Processing by Milling and Cyanide Leaching including a Cyanide Destruction Circuit and Natural Cyanide Destruction....5.10
5.3.1.3 Alternative Process Plant Locations....5.10
On-Site Processing....5.11
Off-Site Processing....5.11
5.3.1.4 Power Supply....5.11
On-site Power Generation Using Renewable Power Sources....5.11
On-site Power Generation Using Diesel-Power Sources....5.11
Off-site Power Generation and transmission by API....5.12
5.3.1.5 Transmission Line Re-Routing....5.12
North Route 5.12
Central Route 5.12
South Route 5.12
5.3.1.6 Process Water Supply....5.13
Use of Water from the Mine Pit and Recycling of Water On-site....5.13
New Supply from Goudreau Lake....5.13
New Supply from Goudreau Lake and Herman Lake....5.13
New Supply from Magpie River....5.13
New Supply from Groundwater Wells....5.16
5.3.1.7 Tailings Management and Mine Rock Management....5.16
5.3.1.8 Non-Hazardous, Non-Mining Solid Waste Disposal....5.16
On-site Landfill....5.16

Off-site Municipal Landfill near Dubreuilville.....5.17
Export 5.17
5.3.1.9 Road Access 5.17
Goudreau Road for All Project Traffic 5.17
Goudreau Road and the Northern Bypass for Heavy Loads.....5.18
New Road from Hawk Junction.....5.20
5.3.1.10 On-site Relocation of Goudreau Road 5.20
Relocation of Goudreau Road to the west of the TMF & MRMF Area.....5.20
Relocation of Goudreau Road to the west of the Open Pit.....5.20
5.3.1.11 Housing for the Operation Phase.....5.22
Accommodations Provided in Local Communities.....5.22
Accommodations provided in the local communities, plus a accommodation complex located on the Magino property 5.22
Accommodations provided in the local communities, plus a accommodation complex located near Dubreuilville. 5.22
5.3.1.12 Mine Pit Closure 5.23
Pit Lake Filling from Local Surface Runoff and Groundwater Inflow.....5.23
Pit Lake Filling from Local Surface Runoff and Groundwater Inflow plus Backfilling of Pit with Mine Rock and/or Tailings 5.23
Pit Lake Filling from Local Surface Runoff and Groundwater Inflow, plus Operations Water Supply Source.....5.23
5.3.1.13 Closure of Tailings Management Facility 5.23
Closure with a Soil Cover and Revegetated Surface on the TMF Deck 5.24
Closure by Creating a Wetland and/or Waterbody on the TMF Deck 5.24
5.3.2 Screening of Alternative Methods for Technical and Economic Feasibility..... 5.24
5.3.2.1 Technical Feasibility 5.24
5.3.2.2 Economic Feasibility.....5.24

5.3.2.3 Summary Results of the Initial Screening 5.33
5.3.3 Detailed Evaluation of Technically and Economically Feasible Alternative Methods 5.35
5.3.3.1 Detailed Evaluation Criteria and Ratings.....5.35
5.3.4 Identification of the Preferred Alternative Methods 5.38
5.3.4.1 Ore Processing.....5.46
5.3.4.2 Local Transmission Line Re-routing.....5.46
5.3.4.3 TMF and MRMF Area 5.47
5.3.4.4 Non-Hazardous Non-Mining Solid Waste Disposal.....5.47
5.3.4.5 Access Roads.....5.47
5.3.4.6 Accommodations for the Operation Phase.....5.48
5.3.4.7 Mine Pit Closure 5.49
5.3.4.8 Closure of Tailings Management Facility 5.49
5.3.5 Summary and Conclusions..... 5.50
5.4 References 5.53
Appendix 5-1: Detailed Evaluation of Alternatives Methods 5.54
Appendix 5-2: IRC-5 and IRC-6 Response – Evaluation of Alternatives 5.114
1. Introduction..... 5.114
2. Mine Waste Alternatives Assessment..... 5.114
2.1 Context.....5.114
2.2 Criteria for Determining the Technical and Economic Feasibility of the Mine Waste Disposal Alternatives.....5.115
3. Alternative Tailings Deposition Methods..... 5.115
3.1 Description of ATDs.....5.116
3.1.1 In-Pit Tailings Disposal – ATD #1 .....5.116
3.1.2 Dry Stack Tailings Disposal – ATD #2 .....5.116
3.1.3 Surface Paste Tailings Disposal – ATD #3 .....5.116
3.1.4 Thickened Tailings Disposal – ATD #4 .....5.117
3.1.5 Conventional Tailings Disposal – ATD #5.....5.117
3.1.6 Co-Disposal of Tailings and Mine Rock– ATD #6 .....5.117
3.2 Screening of Tailings Disposal Methods (ATD).....5.118
3.2.1 Pre-Screening Criteria for Alternative Tailings Disposal Methods.....5.120
3.2.2 In-Pit Tailings Disposal – ATD #1 .....5.124
3.2.3 DryStack Tailings Disposal – ATD #2 .....5.125

3.2.4 Surface Paste Tailings Disposal – ATD #3 ..... 5.127
3.2.5 Thickened Tailings Disposal – ATD #4 ..... 5.128
3.2.6 Conventional Tailings Disposal – ATD #5 ..... 5.129
3.2.7 Co-Disposal of Tailings and Mine Rock – ATD #6 ..... 5.129
3.3 Technically Feasible Tailing Disposal Method for the Magino Project 5.130
4. Mine Rock Disposal 5.130
4.1 Economic Considerations for Disposal of Mine Rock 5.130
4.2 Preferred Disposal Location for Mine Rock 5.132
5. Conclusion of the Technical and Economic Feasibility Analysis for the TMF and MRMF 5.136
6. Freshwater Make-up Alternatives Assessment 5.136
7. Site Drainage 5.136

6.0 DESCRIPTION OF THE PROPOSED UNDERTAKING 6.1
6.1 Project Location 6.2
6.2 Magino Site Access 6.2
6.3 Existing Infrastructure 6.5
6.4 Project Components 6.5
6.4.1 Project Schedule 6.12
6.4.2 Access to the Magino Property 6.14
6.4.2.1 Road Access 6.14
6.4.2.2 Public Bypass Road (Ring Road) 6.14
6.4.2.3 Rail Access and Staging Area at Goudreau 6.14
6.4.3 Ore Body and Open Pit 6.15
6.4.3.1 Open Pit 6.15
6.4.3.2 Explosives Magazine 6.15
6.4.3.3 Overburden Stockpiles 6.16
6.4.3.4 Mitigation by Design Summary 6.16
6.4.4 Mining Material Management Area 6.17
6.4.4.1 Mine Waste Disposal Alternatives Evaluation 6.17
6.4.4.2 Conceptual Design of the Tailings Management Facility (TMF) 6.18
6.4.4.3 Mine Rock Management Facility (MRMF) 6.21
6.4.4.4 Runoff Water Management for TMF and MRMF 6.21
6.4.4.5 Mitigation by Design for the TMF and MRMF 6.21

6.4.5 Plant Area 6.23
6.4.5.1 Plant Site Facilities 6.25
6.4.5.2 Coarse Ore Stockpile and Crushing 6.25
6.4.5.3 Mill Building 6.25
6.4.5.4 Grinding and Classification 6.25
6.4.5.5 Gravity Circuit 6.25
6.4.5.6 Leaching Area 6.26
6.4.5.7 CIP & CIC Circuit 6.26
6.4.5.8 Carbon Plant and Refinery Area 6.26
6.4.5.9 Process Control Systems 6.26
6.4.5.10 Plant Utilities 6.26
6.4.5.11 Surface Water Management 6.27
6.4.5.12 Mitigation by Design Summary for Plant Area 6.27
6.4.6 Ancillary Facilities 6.28
6.4.6.1 Administration, Mine Dry, Security and First Aid Buildings 6.28
6.4.6.2 Truck Shop 6.28
6.4.6.3 Warehouse & Maintenance Shop Building 6.29
6.4.6.4 Detonator and Explosives Facilities 6.29
6.4.6.5 Assay Laboratory and Metallurgical Laboratory 6.29
6.4.6.6 Fuel Storage 6.29
6.4.7 Chemical and Hazardous Materials Management and Storage Facilities 6.29
6.4.7.1 Reagents 6.29
6.4.7.2 Chemical and Hazardous Materials Management and Storage Facilities 6.29
6.4.7.3 Cyanide Destruction 6.30
6.4.7.4 Mitigation by Design for Hazardous Chemical Use and Storage 6.31
6.4.8 Waste Management (Non Mining Wastes) 6.31
6.4.8.1 Hydrocarbon Contaminated Wastes 6.32
6.4.8.2 Hazardous Wastes 6.32
6.4.8.3 Solid Waste 6.32
6.4.9 Enabling Infrastructure 6.33
6.4.9.1 Construction Camp and Mine Dry 6.33
6.4.9.2 Project Roads 6.33
6.4.9.3 Electrical Transmission Lines and Substation 6.34

6.4.9.4 Power Generation Equipment....6.34
6.4.9.5 Potable Water Supply System....6.34
6.4.9.6 Sewage Treatment System....6.34
6.4.9.7 Communications Systems....6.34
6.4.9.8 Site Security....6.35
6.4.9.9 Mitigation by Design Summary....6.35
6.4.10 Surface Water Management Systems and Strategies....6.36
6.4.10.1 Processing Plant, Maintenance Facilities and Indoor Storage Facilities....6.38
6.4.10.2 Open Pit Dewatering....6.38
6.4.10.3 Management of Surface Runoff....6.38
6.4.10.4 Diversions....6.39
6.4.10.5 TMF Water Management....6.39
6.4.10.6 TMF Seepage Water....6.39
6.4.10.7 Water Supply....6.41
6.4.10.8 Fresh Water Requirements....6.41
6.4.10.9 Mitigation by Design Summary....6.41
6.5 Project Works and Activities....6.43
6.5.1 Site Preparation Phase....6.43
6.5.1.1.1 Public Bypass Road and Access to the Magino Site....6.43
6.5.1.1.2 Electrical Transmission Lines and Substation....6.43
6.5.1.1.3 Other Site Preparation Activities....6.45
6.5.1.2 Site Clearing, Grubbing, and Pre-stripping....6.45
6.5.1.3 Site Clearing....6.46
6.5.1.4 Grubbing and Pre-Stripping....6.46
6.5.1.5 Production of Aggregate for Construction of the Project Infrastructure....6.46
6.5.1.6 Water Management Strategies During Site Preparation....6.47
6.5.1.7 Construction of the Open Pit Slurry Wall and Stream Diversions....6.47
6.5.1.8 Site Preparation Phase Workforce Requirements and Personnel Management....6.47
6.5.1.9 Site Preparation Phase and Procurement....6.47
6.5.1.10 Site Preparation Phase Materials and Personnel Transportation....6.47
6.5.1.11 Waste Management During Site Preparation....6.48

6.5.1.12 Mitigation by Design Summary 6.48
6.5.2 Construction Phase Works and Activities 6.48
6.5.2.1 Closure of Existing Mine Facilities 6.49
6.5.2.1.1 Existing Buildings and Structures 6.49
6.5.2.1.2 Existing Non-Mining Waste Landfill 6.49
6.5.2.1.3 Existing Tailings 6.49
6.5.2.1.4 Residual Soils Removal 6.50
6.5.2.2 Topsoil and Overburden Stripping and Stockpiling 6.50
6.5.2.2.1 Topsoil Management 6.50
6.5.2.2.2 Overburden Management 6.50
6.5.2.3 Stream Diversions, Draining, and Backfilling 6.51
6.5.2.4 Construction of Enabling Infrastructure 6.52
6.5.2.4.1 Accommodation 6.52
6.5.2.4.2 Mine Haul Roads 6.53
6.5.2.4.3 Potable and Process Water Infrastructure 6.53
6.5.2.4.4 Sewage Treatment System 6.53
6.5.2.4.5 Waste Management during Construction 6.53
6.5.2.4.6 Site Security 6.53
6.5.2.5 Construction of Plant Area Components 6.54
6.5.2.6 Construction of Chemical, Fuel, and Hazardous Materials Management Facilities 6.54
6.5.2.7 Construction of Mining Waste Management Components 6.54
6.5.2.7.1 MRMF Construction Phase 6.54
6.5.2.7.2 Tailings Management Facility Construction 6.55
6.5.2.8 Construction of Environmental Management Infrastructure and Monitoring 6.56
6.5.2.9 Construction Phase Workforce Requirements and Personnel Management 6.56
6.5.2.10 Construction Phase Payroll and Procurement 6.56
6.5.2.11 Construction Materials and Personnel Transportation 6.56
6.5.2.12 Mitigation by Design Summary 6.57
6.5.3 Operations Phase Works and Activities 6.58

6.5.3.1 Operations and Maintenance of Enabling Infrastructure 6.58
6.5.3.1.1 Roads 6.58
6.5.3.1.2 Mine Haul Roads and Service Roads 6.58
6.5.3.1.3 Electrical Transmission Lines and Substation 6.58
6.5.3.1.4 Potable and Process Water Infrastructure 6.59
6.5.3.1.5 Sewage Treatment System 6.59
6.5.3.1.6 Non-mining Waste Facilities 6.59
6.5.3.1.7 Site Security 6.59
6.5.3.2 Open Pit Mining 6.60
6.5.3.2.1 Mining Method 6.60
6.5.3.2.2 Pit Dewatering 6.60
6.5.3.2.3 Explosives Handling and Use 6.60
6.5.3.2.4 Mining Equipment 6.70
6.5.3.2.5 Support/Ancillary Equipment 6.70
6.5.3.2.6 On-site Materials Haulage 6.71
6.5.3.2.7 Ore Stockpiling 6.71
6.5.3.2.8 Existing Tailings 6.71
6.5.3.2.9 Top-Soil and Overburden Stockpiling 6.72
6.5.3.3 Operation and Maintenance of Ore Processing Plant and Plant Area Facilities 6.72
6.5.3.3.1 Ore Transport 6.72
6.5.3.3.2 Primary Crusher Operations 6.72
6.5.3.3.3 SAG and Ball Mills, Cyclone and Gravity Circuit Operations 6.72
Leaching and Refining Operations 6.73
Electrowinning and Smelting 6.73
Cyanide Treatment 6.75
6.5.3.4 Chemical, Fuel and Hazardous Materials Management 6.75
Chemical Reagents 6.75
Fuels 6.76
6.5.3.5 Mining Waste Management 6.77
Mining Material Management Facility Operations 6.77
Tailings Management Facility Operations 6.77

6.5.3.6 Progressive Rehabilitation of Mining Material Management Facilities 6.78
Existing Tailings Facility 6.78
Mine Rock Management Facility 6.78
Tailings Management Facility 6.79
6.5.3.7 Operation and Maintenance of Water Management Infrastructure 6.79
6.5.3.7.1 Groundwater Controls and Pit Water Management 6.81
6.5.3.7.2 Surface Water Diversions and Collection 6.81
6.5.3.7.3 TMF and MRMF Seepage Water Management 6.81
6.5.3.7.4 Sewage Treatment Facility Operations 6.81
6.5.3.7.5 Water Quality Control Pond 6.82
6.5.3.7.6 Discharge to the Receiving Environment 6.82
6.5.3.7.7 Adaptive Management 6.82
6.5.3.7.8 Ongoing Environmental Monitoring 6.82
6.5.3.8 Support Mobile Equipment for Mill Operation 6.83
6.5.3.9 Operations Phase Workforce Requirements and Personnel Management 6.83
6.5.3.9.1 General Administration and Labour Staffing Schedule 6.83
6.5.3.9.2 Mine Personnel and Organization Structure 6.84
6.5.3.9.3 Milling Operation Labour and Staffing Schedule 6.86
6.5.3.10 Operations Phase Materials and Personnel Transportation 6.86
6.5.3.11 Mitigation by Design Summary during Operation Phase 6.87
6.5.4 Closure and Rehabilitation Related Works and Activities 6.90
6.5.4.1 Closure of Explosives Management Facilities 6.90
6.5.4.2 Closure of Chemical, Fuel and Hazardous Materials Management Facilities 6.90
6.5.4.3 Closure of Enabling Infrastructure 6.90
Accommodation Complex 6.90
Mine Haul Roads and Service Roads 6.90

Electrical Transmission Lines and Substation 6.90
Potable and Process Water Infrastructure 6.91
Sewage Treatment System 6.91
Non-Mining Waste Facilities 6.91
Site Security 6.91
6.5.4.4 Closure of Ore Processing Plant and Plant Area Facilities 6.91
Low-Grade Ore Stockpile 6.91
Primary Crushing Facility and Crushed Ore Stockpile 6.91
Gold Processing & Ancillary Facilities 6.92
6.5.4.5 Final Rehabilitation of Mining Waste Management 6.92
Mine Rock Management Facility 6.92
Tailings Management Facility 6.92
6.5.4.6 Site Rehabilitation 6.93
6.5.4.7 Operation and Maintenance of Environmental Management Infrastructure 6.93
6.5.4.7.1 Surface Water Controls 6.95
6.5.4.7.2 Pit Filling 6.95
6.5.4.7.3 Ongoing Environmental Monitoring 6.95
6.5.4.8 Closure and Rehabilitation Phase Workforce Requirements & Personnel Management 6.95
6.5.4.9 Closure and Rehabilitation Phase Payroll and Procurement 6.95
6.5.4.10 Closure and Rehabilitation Phase Materials and Personnel Transportation 6.96
6.5.4.11 Mitigation by Design Summary 6.96
6.5.5 Post Closure Phase 6.96
6.5.5.1 Pit Lake Filling 6.96
6.5.5.2 Mitigation by Design Summary 6.97
6.5.5.3 Adaptive Management 6.98
6.6 Temporary Suspension of Operations or State of Inactivity 6.98
6.7 Evolution of the Project 6.98
6.7.1 Feasibility Studies 6.99
6.7.1.1 Current Feasibility Study 6.99
6.7.1.2 Implication for the EIS 6.99

6.7.2 Environmental Baseline Studies, Traditional Knowledge, and, Public Consultations 6.100
6.7.2.1 Feedback from Engagement with Aboriginal Groups 6.100
6.7.2.2 Changes to the Project Design as a result of Public Consultation 6.101
6.7.3 Changes to the Project 6.101
6.8 Summary of Mitigation Measures Incorporated into the Project 6.104
6.9 References 6.115

7.0 EFFECTS ASSESSMENT 7.1
I. Preamble 7.1
II. IRC-3 Response 7.2
1. Effects on Indigenous Peoples – Forestry and Logging by Indigenous Peoples 7.2
7.1 Scope and Methodology 7.3
7.1.1 Overview 7.3
7.1.1.1 Valued Components and Indicators 7.3
7.1.2 Effects Assessment 7.7
7.1.2.1 Legislative Requirements and other Guidance 7.7
7.1.2.2 Key Indicators and Measurable Parameters 7.7
7.1.2.3 Effects Mechanisms 7.8
7.1.2.4 Assessment Methods 7.8
7.1.2.5 Assumptions and the Conservative Approach 7.8
7.1.2.6 Description of Effects on VCs and Indicators 7.8
7.1.2.7 Effects Mitigation or Enhancement 7.9
7.1.2.8 Residual Effects 7.10
7.1.2.9 Significance of Residual Effects 7.10
7.1.2.10 Follow-up and Monitoring 7.11
7.2 Atmospheric Environment 7.11
7.2.1 Meteorology and Air Quality 7.11
7.2.1.1 Legislative Requirements and other Guidance 7.11
7.2.1.2 Key Indicators and Measurable Parameters for Air Quality 7.12
7.2.1.3 Effects Mechanisms 7.13
7.2.1.4 Assessment Methods 7.16
7.2.1.4.1 Assumptions and the Conservative Approach 7.17

7.2.1.5 Effects Analysis 7.18
7.2.1.5.1 Effect on Air Quality Concentrations 7.18
7.2.1.6 Effects Mitigation or Enhancement 7.20
7.2.1.7 Residual Effects on Air Quality 7.20
7.2.1.8 Significance of Residual Effects on Air Quality 7.20
7.2.1.9 Follow-up and Monitoring Program for Air Quality 7.22
7.2.1.9.1 Preliminary Monitoring Program 7.22
7.2.2 Noise 7.26
7.2.2.1 Legislative Requirements and other Guidance 7.26
7.2.2.2 Key Indicators and Measurable Parameters for Noise 7.27
7.2.2.3 Effects Mechanisms 7.27
7.2.2.4 Assessment Methods 7.27
7.2.2.4.1 Assumptions and the Conservative Approach 7.31
7.2.2.5 Effects Analysis 7.31
7.2.2.5.1 Effect on Nighttime Equivalent Levels 7.31
7.2.2.6 Effects Mitigation or Enhancement 7.32
7.2.2.7 Residual Effects on Noise 7.32
7.2.2.8 Significance of Residual Effects on Noise 7.32
7.2.2.9 Follow-up and Monitoring Program for Noise 7.35
7.2.3 Vibration 7.35
7.2.3.1 Legislative Requirements and other Guidance 7.35
7.2.3.2 Key Indicators and Measurable Parameters for Vibration 7.36
7.2.3.3 Effects Mechanisms 7.36
7.2.3.4 Assessment Methods 7.37
7.2.3.4.1 Assumptions and the Conservative Approach 7.37
7.2.3.5 Effects on Vibration 7.37
7.2.3.5.1 Effect on Peak Air Pressure Level and Peak Particle Velocity 7.37
7.2.3.5.2 Effect on Ground Vibration and Instantaneous Underwater Overpressure 7.38
7.2.3.6 Effects Mitigation or Enhancement 7.40
7.2.3.7 Residual Effects on Vibration 7.40

7.2.3.8 Significance of Residual Effects on Vibration 7.41
7.2.3.9 Follow-up and Monitoring Program for Vibration 7.44
7.2.3.9.1 Preliminary Monitoring Program 7.44
7.2.4 Light 7.46
7.2.4.1 Legislative Requirements and other Guidance 7.46
7.2.4.2 Key Indicators and Measurable Parameters for Light 7.46
7.2.4.3 Effects Mechanisms 7.47
7.2.4.4 Assessment Methods 7.49
7.2.4.4.1 Assumptions and the Conservative Approach 7.50
7.2.4.5 Effects Analysis 7.51
7.2.4.5.1 Effect on Light Trespass 7.51
7.2.4.5.2 Effects on Sky Glow 7.51
7.2.4.6 Effects Mitigation or Enhancement 7.52
7.2.4.7 Residual Effects on Light 7.52
7.2.4.8 Significance of Residual Effects on Light 7.52
7.2.4.8.1 Increased Anthropogenic Light and Reduced Sky Quality due to Increased Light and Sky Glow at Points of Reception. 7.55
7.2.4.9 Follow-up and Monitoring Program for Light 7.55
7.2.5 Greenhouse Gases 7.55
7.2.5.1 Guidance 7.55
7.2.5.2 Key Indicators and Measurable Parameters for Greenhouse Gases 7.57
7.2.5.3 Effects Mechanisms 7.57
7.2.5.4 Assessment Methods 7.59
7.2.5.4.1 Assumptions and the Conservative Approach 7.59
7.2.5.5 Effects Analysis 7.60
7.2.5.5.1 Effect on Direct Greenhouse Gas Emissions 7.60
7.2.5.5.2 Effect on Indirect Greenhouse Gas Emissions 7.60
7.2.5.6 Effects Mitigation or Enhancement 7.61
7.2.5.7 Residual Effects on Greenhouse Gases 7.61
7.2.5.8 Significance of Residual Effects on Greenhouse Gases 7.61
7.2.5.9 Follow-up and Monitoring Program for Greenhouse Gases 7.63

7.2.5.9.1 Preliminary Monitoring Program.....7.63
7.3 Physical Environment 7.63
7.3.1 Terrain and Soils..... 7.63
7.3.1.1 Legislative Requirements and other Guidance.....7.63
7.3.1.2 Key Indicators and Measurable Parameters for Terrain and Soils 7.65
7.3.1.3 Effects Mechanisms.....7.66
7.3.1.4 Assessment Methods 7.67
7.3.1.4.1 Assumptions and the Conservative Approach 7.67
7.3.1.5 Effects Analysis 7.67
7.3.1.5.1 Site Preparation Phase 7.67
7.3.1.5.2 Construction Phase.....7.67
7.3.1.5.3 Operations 7.68
7.3.1.5.4 Closure 7.68
7.3.1.6 Mitigation.....7.73
7.3.1.7 Residual Effects on Terrain and Soils 7.73
7.3.1.8 Significance of Residual Effects on Terrain and Soils 7.73
7.3.1.8.1 Altered Ground Surface Slopes and Site Topography.....7.73
7.3.1.8.2 Increased Potential for Slope Failures and Erosion of Natural Soils.....7.73
7.3.1.8.3 Reduced Soil Quality 7.73
7.3.1.9 Follow-up and Monitoring Program for Terrain and Soils.....7.75
7.3.1.9.1 Operations and Monitoring Program.....7.75
7.3.2 Groundwater..... 7.75
7.3.2.1 Legislative Requirements and other Guidance.....7.75
7.3.2.2 Key Indicators and Measurable Parameters for Groundwater.....7.77
7.3.2.3 Effects Mechanisms.....7.79
7.3.2.4 Assessment Methods 7.79
7.3.2.4.1 Conceptual Hydrogeologic Model 7.79
7.3.2.4.2 Computer Models.....7.79
7.3.2.4.3 Groundwater Quality 7.80
7.3.2.5 Assumptions and the Conservative Approach.....7.80
7.3.2.6 Effects Analysis 7.81

7.3.2.6.1 Potential Effects on Groundwater Levels and Flow....7.81
7.3.2.7 Potential Effects on Groundwater Quality....7.83
7.3.2.8 Effects Mitigation or Enhancement....7.85
7.3.2.9 Residual Effects on Groundwater....7.85
7.3.2.10 Significance of Residual Effects on Groundwater....7.85
7.3.2.10.1 Lowering of groundwater levels in the vicinity of the open pit....7.89
7.3.2.10.2 Increase in groundwater levels in the vicinity of the TMF and MRMF....7.89
7.3.2.10.3 Reduction of the flow of groundwater due to dewatering of the pit....7.89
7.3.2.10.4 Reduced groundwater quality under the TMF, MRMF and to the east of the pit lake....7.89
7.3.2.11 Follow-up and Monitoring Program for Groundwater....7.89
7.3.2.11.1 Preliminary Monitoring Program....7.89
7.3.3 Surface Water Hydrology....7.91
7.3.3.1 Legislative Requirements and Other Guidance....7.91
7.3.3.2 Key Indicators and Measurable Parameters for Surface Water Quantity....7.92
7.3.3.3 Effects Mechanisms....7.92
7.3.3.4 Assessment Methods....7.93
7.3.3.5 Assumptions of the Conservative Approach....7.94
7.3.3.6 Effects Analysis....7.94
7.3.3.7 Effect on Surface Water Quantity and Flow....7.95
7.3.3.7.1 Site Preparation Phase....7.95
7.3.3.7.2 Construction Phase Works....7.95
7.3.3.7.3 Operations Phase Works and Activities....7.97
7.3.3.7.4 Closure and Rehabilitation Phase and Works....7.100
7.3.3.7.5 Post Closure Phase Works and Activities....7.100
7.3.3.8 Effects Mitigation or Enhancement....7.102
7.3.3.9 Residual Effects on Surface Water Quantity and Flow....7.103
7.3.3.10 Significance of Residual Effects on Surface Water Quantity and Flow....7.103

7.3.3.10.1 Increased Water Levels and Flows in Spring Lake and McVeigh Creek Associated With Lovell Lake Dewatering During Construction 7.106
7.3.3.10.2 Increased Water Levels and Flows in Goudreau Lake and Goudreau Lake Outflow Associated With Webb Lake Dewatering During Construction..... 7.106
7.3.3.10.3 Reduction in Water Levels and Flows in Spring Lake due to Changes in Upstream Catchment Area During Operations, Closure and Post-Closure 7.106
7.3.3.10.4 Reduction in Water Levels of Goudreau Lake Water Levels and Goudreau Lake Outflows Resulting From Surface Water Takings and Pit Dewatering 7.107
7.3.3.11 Follow-up and Monitoring Program for Surface Water Quantity and Flow 7.107
7.3.3.11.1 Preliminary Monitoring Program..... 7.107
7.3.4 Surface Water Quality..... 7.110
7.3.4.1 Legislative Requirements and other Guidance..... 7.110
7.3.4.2 Key Indicators and Measurable Parameters for Water Quality..... 7.111
7.3.4.3 Effects Mechanisms..... 7.112
7.3.4.4 Assessment Methods 7.113
7.3.4.5 Effects Analysis 7.121
7.3.4.5.1 Effect on Water Quality 7.121
7.3.4.5.1.1 Site Preparation Phase……. 7.121
7.3.4.5.1.2 Construction Phase …….. 7.121
7.3.4.5.1.3 Operations Phase ……..7.124
7.3.4.5.1.4 Closure Phase …… 7.136
7.3.4.5.1.5 Post-Closure Phase ……..7.137
7.3.4.6 Effects Mitigation or Enhancement 7.141
7.3.4.7 Residual Effects on Water Quality 7.142
7.3.4.8 Significance of Residual Effects on Water Quality 7.142
7.3.4.8.1 Increase in Sulphate, Total Phosphorus, Copper, Mercury and Silver..... 7.146

7.3.4.9 Follow-up and Monitoring Program for Water Quality 7.146
7.3.4.9.1 Preliminary Monitoring Program 7.146
7.3.4.9.1.1 Scope and Resource Considerations 7.146
7.3.4.9.1.2 Adaptive Management Measures 7.147
7.3.5 Stream and Lake Sediments 7.149
7.3.5.1 Legislative Requirements and other Guidance 7.149
7.3.5.2 Key Indicators and Measurable Parameters for Sediment Quality 7.150
7.3.5.3 Effects Mechanisms 7.150
7.3.5.4 Assessment Methods 7.152
7.3.5.4.1 Assumptions and the Conservative Approach 7.154
7.3.5.5 Effects Analysis 7.154
7.3.5.5.1 Effect on Sediment Quality 7.154
7.3.5.5.1.1 Site Preparation Phase 7.154
7.3.5.5.1.2 Construction Phase 7.155
7.3.5.5.1.3 Operations Phase 7.157
7.3.5.5.1.4 Closure Phase 7.162
7.3.5.5.1.5 Post-Closure Phase 7.163
7.3.5.6 Effects Mitigation or Enhancement 7.163
7.3.5.7 Residual Effects on Stream and Lake Sediments .. 7.164
7.3.5.8 Significance of Residual Effects on Sediment Quality 7.165
7.3.5.8.1 Increased sediment concentrations in Otto Lake 7.169
7.3.5.8.2 Increased sediment concentrations in Herman Lake 7.169
7.3.5.9 Follow-up and Monitoring Program for Sediment Quality 7.169
7.3.5.9.1 Preliminary Monitoring Program 7.169
7.3.5.9.2 Scope and Resource Considerations 7.169
7.3.5.9.2.1 Adaptive Management Measures 7.170
7.3.6 Visual Resources 7.172
7.3.6.1 Legislative Requirements and other Guidance 7.172
7.3.6.2 Key Indicators and Measurable Parameters for Visual Resources 7.172
7.3.6.3 Effects Mechanisms 7.172
7.3.6.4 Assessment Methods 7.173

7.3.6.4.1 Assumptions and the Conservative Approach 7.173
7.3.6.5 Effects Analysis 7.173
7.3.6.6 Effect on Visibility 7.173
7.3.6.7 Effects Mitigation or Enhancement 7.177
7.3.6.8 Residual Effects on Visual Resources 7.177
7.3.6.9 Significance of Residual Effects on Visual Resources 7.177
7.4 Biological Environment 7.180
7.4.1 Fish and Fish Habitat 7.180
7.4.1.1 Legislative Requirements and other Guidance 7.187
7.4.1.2 Key Indicators and Measurable Parameters for Fish and Fish Habitat 7.189
7.4.1.3 Effects Mechanisms 7.190
7.4.1.4 Assessment Methods 7.192
7.4.1.4.1 Lower Trophic Levels 7.192
7.4.1.4.2 Commercial, Recreational and Aboriginal Fisheries 7.198
7.4.1.4.3 Fish Habitat 7.200
7.4.1.4.4 Assumptions and the Conservative Approach 7.201
7.4.1.5 Effects Analysis 7.202
7.4.1.5.1 Effects on Lower Trophic Community 7.202
7.4.1.5.2 Effects on CRA Fisheries 7.203
7.4.1.5.3 Effects on Fish Habitat 7.205
7.4.1.6 Effects Mitigation or Enhancement 7.208
7.4.1.7 Residual Effects on Fish and Fish Habitat 7.212
7.4.1.8 Significance of Residual Effects on Fish and Fish Habitat 7.212
7.4.1.8.1 Effects of Changes in Water and Sediment Quality on Lower Trophic Levels 7.217
7.4.1.8.2 Blasting from the Open Pit 7.217
7.4.1.8.3 Loss of CRA Fish associated with Fish Relocations 7.217
7.4.1.8.4 Loss of Fish Habitat Due to Removal of Water Bodies and Watercourses 7.217
7.4.1.9 Follow-up and Monitoring for Fish and Fish Habitat 7.217
7.4.2 Terrestrial Vegetation 7.220

7.4.2.1 Legislative Requirements and other Guidance 7.220
7.4.2.2 Key Indicators and Measurable Parameters for Terrestrial Vegetation 7.221
7.4.2.3 Effects Mechanisms 7.222
7.4.2.4 Assessment Methods 7.223
7.4.2.4.1 Assumptions and the Conservative Approach 7.224
7.4.2.5 Effects Analysis 7.224
7.4.2.5.1 Effect on Upland Forest 7.225
7.4.2.5.2 Effects on Rock Barrens 7.227
7.4.2.6 Effects Mitigation or Enhancement 7.228
7.4.2.7 Residual Effects on Terrestrial Vegetation 7.228
7.4.2.8 Significance of Residual Effects on Terrestrial Vegetation 7.229
7.4.2.8.1 Removal of upland forest and associated rock barrens 7.232
7.4.2.8.2 Fragmentation of pathways of connectivity within the Webb-Goudreau and Lovell-Spring Lake watersheds 7.232
7.4.2.9 Follow-up and Monitoring Program for Terrestrial Vegetation 7.232
7.4.3 Wetlands 7.235
7.4.3.1 Legislative Requirements and other Guidance 7.235
7.4.3.2 Key Indicators and Measurable Parameters for Wetlands 7.236
7.4.3.3 Effects Mechanisms 7.237
7.4.3.4 Assessment Methods 7.238
7.4.3.4.1 Assumptions and the Conservative Approach 7.240
7.4.3.5 Effects Analysis 7.240
7.4.3.6 Effect on Organic/Peat Accumulating Wetlands 7.241
7.4.3.6.1 Site Preparation Phase 7.242
7.4.3.6.2 Construction Phase 7.242
7.4.3.6.3 Operations Phase 7.243
7.4.3.6.4 Closure and Post Closure Phases 7.243
7.4.3.7 Effects on Mineral Wetlands 7.244
7.4.3.7.1 Site Preparation Phase 7.244
7.4.3.7.2 Construction Phase 7.245
7.4.3.7.3 Operations Phase 7.245
7.4.3.7.4 Closure and Post-Closure Phases 7.245

7.4.3.8 Effects Mitigation or Enhancement 7.245
7.4.3.9 Residual Effects on Wetlands 7.245
7.4.3.10 Significance of Residual Effects on Wetlands 7.245
7.4.3.10.1 Removal of Organic/Peat Accumulating and Mineral Wetlands 7.248
7.4.3.10.2 Reduced Quality/Function of Retained Wetlands Due to Altered Water Quality and Quantity 7.248
7.4.3.10.3 Reduced Quality/Function of Retained Wetlands Due to Indirect Effects of Dust, Wind, and Sun Exposure 7.248
7.4.3.11 Follow-up and Monitoring Program for Wetlands ... 7.248
7.4.4 Significant Wildlife Habitat 7.248
7.4.4.1 Overview 7.248
7.4.4.2 Legislative Requirements and other Guidance 7.248
7.4.4.3 Key Indicators and Measurable Parameters for Significant Wildlife Habitat 7.250
7.4.4.4 Effects Mechanisms 7.251
7.4.4.5 Assessment Methods 7.253
7.4.4.5.1 Assumptions and the Conservative Approach 7.253
7.4.4.6 Effects Analysis 7.254
7.4.4.6.1 Effects on Moose Calving, Aquatic Feeding, and Late Winter Cover Areas 7.254
7.4.4.6.2 Effects on Amphibian Breeding Areas 7.256
7.4.4.6.3 Effect on Habitat for Species of Special Concern 7.257
7.4.4.7 Effects Mitigation or Enhancement 7.259
7.4.4.8 Residual Effects on Significant Wildlife Habitat 7.259
7.4.4.9 Significance of Residual Effects on Significant Wildlife Habitat 7.259
7.4.4.9.1 Removal of Moose Calving, Aquatic Feeding and Late Winter Cover Habitat 7.262
7.4.4.9.2 Removal of Habitat for Species of Special Concern 7.262
7.4.4.9.2.1 Removal of Amphibian Breeding Habitat 7.264
7.4.4.10 Follow-up and Monitoring Program for Significant Wildlife Habitat 7.264

7.4.4.10.1 Preliminary Monitoring Program 7.264
7.4.5 Migratory and Breeding Birds 7.266
7.4.5.1 Legislative Requirements and other Guidance 7.266
7.4.5.2 Key Indicators and Measurable Parameters for Migratory and Breeding Birds 7.267
7.4.5.3 Effects Mechanisms 7.268
7.4.5.4 Assessment Methods 7.269
7.4.5.4.1 Assumptions and the Conservative Approach 7.270
7.4.5.5 Effects Analysis 7.270
7.4.5.5.1 Effect on Canopy Warblers and Habitat 7.270
7.4.5.5.2 Effect on Waterfowl and Waterfowl Habitat 7.271
7.4.5.5.3 Effect on Raptors 7.273
7.4.5.6 Effects Mitigation or Enhancement 7.274
7.4.5.7 Residual Effects on Migratory and Breeding Birds 7.274
7.4.5.8 Significance of Residual Effects on Migratory and Breeding Birds 7.274
7.4.5.8.1 Loss of Mature Forest Canopy Habitat for Warblers 7.277
7.4.5.8.2 Loss of Foraging and Staging Habitat for Waterfowl 7.277
7.4.5.8.3 Loss of Foraging Habitat for Raptors 7.277
7.4.5.9 Follow-up and Monitoring Program for Migratory and Breeding Birds 7.277
7.4.6 Mammals 7.277
7.4.6.1 Legislative Requirements and other Guidance 7.277
7.4.6.2 Key Indicators and Measurable Parameters for Mammals 7.279
7.4.6.3 Effects Mechanisms 7.281
7.4.6.4 Assessment Methods 7.282
7.4.6.4.1 Assumptions and the Conservative Approach 7.282
7.4.6.5 Effects Analysis 7.283
7.4.6.5.1 Effect on Bear Berry Foraging Habitat and Bear 7.283
7.4.6.5.2 Effects on Moose Travel Corridors and Moose 7.285

7.4.6.5.3 Effect on Furbearer Habitat and Furbearers 7.286
7.4.6.6 Effects Mitigation or Enhancement 7.288
7.4.6.7 Residual Effects on Mammals 7.289
7.4.6.8 Significance of Residual Effects on Mammals..... 7.290
7.4.6.8.1 Removal of Black Bear Berry Foraging Habitat 7.294
7.4.6.8.2 Creation of barriers to landscape connectivity including Removal of Moose Travel Corridors..... 7.294
7.4.6.8.3 Changes in Mammal Behaviour due to Noise, Vibration and Light 7.294
7.4.6.8.4 Attraction of bears and other mammals to kitchen waste disposal areas; dining facilities and human activity where food might be available..... 7.294
7.4.6.8.5 Removal of Beaver Lodges and Furbearer Habitat due to Draining of Wetlands and Waterbodies 7.294
7.4.6.8.6 Increased Mammal-vehicular Collisions 7.295
7.4.6.8.7 Increased Exposure of Mammals to Contaminants in Water Quality Ponds, Constructed Treatment Wetlands and from Dustfall 7.295
7.4.6.9 Follow-up and Monitoring Program for Mammals... 7.295
7.4.6.9.1 Preliminary Monitoring Program..... 7.295
7.4.7 Species at Risk..... 7.298
7.4.7.1 Legislative Requirements and other Guidance..... 7.298
7.4.7.2 Key Indicators and Measurable Parameters for Species at Risk (Threatened and Endangered) 7.300
7.4.7.3 Effects Mechanisms..... 7.301
7.4.7.4 Assessment Methods 7.302
7.4.7.4.1 Assumptions and the Conservative Approach 7.302
7.4.7.5 Effects Analysis 7.303
7.4.7.5.1 Effect on Whip-poor-will (Caprimulgus vociferous) 7.303
7.4.7.5.2 Effect on Chimney Swift (Chaetura pelagic) 7.303
7.4.7.5.3 Effect on Little Brown Bat (Myotis lucifugus) and Northern Long-eared Bat (Myotis septentrionalis)..... 7.303

7.4.7.6 Effects Mitigation or Enhancement 7.303
7.4.7.7 Residual Effects on SAR..... 7.303
7.4.7.8 Significance of Residual Effects on SAR..... 7.304
7.4.7.8.1 Removal of Bat Hibernaculum..... 7.307
7.4.7.9 Follow-up and Monitoring Program for Threatened and Endangered SAR..... 7.307
7.4.7.9.1 Preliminary Monitoring Program..... 7.307
7.5 Social Environment..... 7.309
7.5.1 Population and Demographics..... 7.309
7.5.1.1 Legislative Requirements and other Guidance..... 7.309
7.5.1.2 Key Indicators and Measurable Parameters for Population and Demographics..... 7.309
7.5.1.3 Effects Mechanisms..... 7.310
7.5.1.4 Assessment Methods 7.310
7.5.1.4.1 Assumptions and the Conservative Approach 7.310
7.5.1.5 Effects Analysis 7.311
7.5.1.5.1 Effect on Population Levels and Mobility 7.311
7.5.1.5.2 Effect on Population Demographics .. 7.312
7.5.1.6 Effects Mitigation or Enhancement 7.312
7.5.1.7 Residual Effects on Population and Demographics 7.312
7.5.1.8 Significance of Residual Effects on Population and Demographics..... 7.313
7.5.1.9 Follow-up and Monitoring Program for Population and Demographics..... 7.313
7.5.1.9.1 Preliminary Monitoring Program..... 7.313
7.5.1.10 Influence of Community and Traditional Knowledge on the Assessment..... 7.315
7.5.2 Community Vitality..... 7.315
7.5.2.1 Legislative Requirements and other Guidance..... 7.315
7.5.2.2 Key Indicators and Measurable Parameters for Community Vitality..... 7.315
7.5.2.3 Effects Mechanisms..... 7.316
7.5.2.4 Assessment Methods 7.317
7.5.2.4.1 Assumptions and the Conservative Approach 7.318
7.5.2.5 Effects Analysis 7.318
7.5.2.5.1 Effect on Recreation and Leisure 7.318

7.5.2.5.2 Effect on Community Character 7.326
7.5.2.5.3 Effect on Community Facilities and Services 7.326
7.5.2.5.4 Effect on Health and Social Services 7.327
7.5.2.5.5 Effect on Adult Education and Training 7.327
7.5.2.5.6 Effect on Crime and Public Safety 7.328
7.5.2.5.7 Effect on Individual and Family Well-Being 7.328
7.5.2.6 Effects Mitigation or Enhancement 7.328
7.5.2.7 Residual Effects on Community Vitality 7.330
7.5.2.8 Significance of Residual Effects on Community Vitality 7.330
7.5.2.9 Follow-up and Monitoring Program for Community Vitality 7.333
7.5.2.9.1 Preliminary Monitoring Program 7.333
7.5.2.10 Influence of Community and Traditional Knowledge on the Assessment 7.333
7.5.3 Infrastructure and Services 7.334
7.5.3.1 Legislative Requirements and other Guidance 7.334
7.5.3.2 Key Indicators and Measurable Parameters for Infrastructure and Services 7.334
7.5.3.3 Effects Mechanisms 7.334
7.5.3.4 Assessment Methods 7.335
7.5.3.4.1 Assumptions and the Conservative Approach 7.335
7.5.3.5 Effects Analysis 7.336
7.5.3.5.1 Effect on Housing 7.336
7.5.3.5.2 Effect on Emergency Services 7.337
7.5.3.5.3 Effect on Utilities 7.337
7.5.3.5.4 Effect on Road Transportation 7.337
7.5.3.5.5 Effect on Communications 7.338
7.5.3.5.6 Effect on Energy Supply 7.338
7.5.3.6 Effects Mitigation or Enhancement 7.338
7.5.3.7 Residual Effects on Infrastructure and Services 7.339
7.5.3.8 Significance of Residual Effects on Infrastructure and Services 7.340
7.5.3.9 Follow-up and Monitoring Program for Infrastructure and Services 7.344
7.5.3.9.1 Preliminary Monitoring Program 7.344

7.5.3.10 Influence of Community and Traditional Knowledge on the Assessment....7.344
7.6 Economic Environment....7.345
7.6.1 Land Use and Tourism....7.345
7.6.1.1 Legislative Requirements and other Guidance....7.345
7.6.1.2 Key Indicators and Measurable Parameters for Land Use and Tourism....7.345
7.6.1.3 Effects Mechanisms....7.346
7.6.1.4 Assessment Methods....7.347
7.6.1.4.1 Assumptions and the Conservative Approach....7.347
7.6.1.5 Effects Analysis....7.348
7.6.1.5.1 Effect on Land Ownership/ Tenure....7.348
7.6.1.5.2 Effect on Mining....7.348
7.6.1.5.3 Effect on Forestry....7.348
7.6.1.5.4 Effect on Commercial Tourism and Recreation....7.349
7.6.1.5.5 Effect on Commercial Trapping....7.354
7.6.1.5.6 Effect on Parks and Protected Areas....7.355
7.6.1.5.7 Effect on Other Land Uses....7.355
7.6.1.6 Effects Mitigation or Enhancement....7.356
7.6.1.7 Residual Effects on Land Use and Tourism....7.357
7.6.1.8 Significance of Residual Effects on Land Use and Tourism....7.357
7.6.1.9 Follow-up and Monitoring Program for Land Use and Tourism....7.361
7.6.1.9.1 Preliminary Monitoring Program....7.361
7.6.1.9.1.1 Context and Objectives 7.361
7.6.1.9.1.2 Scope and Resource Considerations 7.361
7.6.1.9.1.3 Adaptive Management Measures 7.361
7.6.1.10 Influence of Community and Traditional Knowledge on the Assessment....7.361
7.6.2 Employment and Business Opportunities....7.361
7.6.2.1 Legislative Requirements and other Guidance....7.362
7.6.2.2 Key Indicators and Measurable Parameters for Employment and Business Opportunities....7.362
7.6.2.3 Effects Mechanisms....7.362
7.6.2.4 Assessment Methods....7.363

7.6.2.4.1 Assumptions and the Conservative Approach 7.363
7.6.2.5 Effects Analysis 7.364
7.6.2.5.1 Effect on Employment and Wage Income 7.364
7.6.2.5.2 Effect on Labour Supply 7.369
7.6.2.5.3 Effect on Business Activity 7.370
7.6.2.6 Effects Mitigation or Enhancement 7.371
7.6.2.7 Residual Effects on Employment and Business Opportunities 7.371
7.6.2.8 Significance of Residual Effects on Employment and Business Opportunities 7.372
7.6.2.9 Follow-up and Monitoring Program for Employment and Business Opportunities 7.372
7.6.2.9.1 Preliminary Monitoring Program 7.372
7.6.2.10 Influence of Community and Traditional Knowledge on the Assessment 7.373
7.6.3 Government Revenues 7.373
7.6.3.1 Legislative Requirements and other Guidance 7.373
7.6.3.2 Key Indicators and Measurable Parameters for Government Revenues 7.374
7.6.3.3 Effects Mechanisms 7.374
7.6.3.4 Assessment Methods 7.374
7.6.3.4.1 Assumptions and the Conservative Approach 7.375
7.6.3.5 Effects Analysis 7.375
7.6.3.5.1 Effect on Municipal Revenues 7.375
7.6.3.5.2 Effect on Provincial Revenues 7.375
7.6.3.5.3 Effect on Federal Revenues 7.377
7.6.3.6 Effects Mitigation or Enhancement 7.378
7.6.3.7 Residual Effects on Government Revenues 7.378
7.6.3.8 Significance of Residual Effects on Government Revenues 7.378
7.6.3.9 Follow-up and Monitoring Program for Government Revenues 7.379
7.6.3.9.1 Preliminary Monitoring Program 7.379
7.6.3.10 Influence of Community and Traditional Knowledge on the Assessment 7.379
7.7 Aboriginal Interests 7.379
7.7.1 Aboriginal Employment and Business Opportunities 7.380
7.7.1.1 Legislative Requirements and other Guidance 7.380

7.7.1.2 Key Indicators and Measurable Parameters for Aboriginal Employment and Business Opportunities 7.381
7.7.1.3 Effects Mechanisms 7.382
7.7.1.4 Assessment Methods 7.382
7.7.1.4.1 Assumptions and the Conservative Approach 7.383
7.7.1.5 Effects Analysis 7.383
7.7.1.5.1 Effect on Aboriginal Employment and Wage Income 7.383
7.7.1.5.2 Effect on Aboriginal Labour Supply 7.384
7.7.1.5.3 Effect on Aboriginal Education and Training 7.385
7.7.1.5.4 Effect on Aboriginal Business Activity 7.385
7.7.1.6 Effects Mitigation or Enhancement 7.386
7.7.1.7 Residual Effects on Aboriginal Employment and Business Opportunities 7.386
7.7.1.8 Significance of Residual Effects on Aboriginal Employment and Business Opportunities 7.387
7.7.1.9 Follow-up and Monitoring Program for Aboriginal Employment and Business Opportunities 7.387
7.7.1.9.1 Preliminary Monitoring Program 7.387
7.7.1.10 Influence of Community and Traditional Knowledge on the Assessment 7.389
7.7.2 Traditional Use of Lands and Resources 7.389
7.7.2.1 Legislative Requirements and Other Guidance 7.390
7.7.2.2 Key Indicators and Measurable Parameters for Traditional Use of Lands and Resources 7.391
7.7.2.3 Effects Mechanisms 7.392
7.7.2.4 Assessment Methods 7.393
7.7.2.4.1 Assumptions and the Conservative Approach 7.393
7.7.2.5 Effects Analysis 7.393
7.7.2.5.1 Summary of Traditional Use of Land and Resources 7.397
7.7.2.5.1.1 Summary of Traditional Hunting Uses 7.397
7.7.2.5.1.2 Summary of Fishing Uses 7.397
7.7.2.5.1.3 Summary of Trapping Uses 7.397
7.7.2.5.1.4 Summary of Gathering Uses 7.398

7.7.2.5.2 Effects Assessment – Traditional Use of Lands and Resources 7.399
7.7.2.6 Effects Mitigation or Enhancement 7.404
7.7.2.7 Residual Effects on Traditional Use of Lands and Resources 7.404
7.7.2.8 Significance of Residual Effects on Traditional Use of Lands and Resources 7.405
7.7.2.9 Follow-up and Monitoring Program for Traditional Use of Lands and Resources 7.407
7.7.2.9.1 Preliminary Monitoring Program 7.407
7.7.2.10 Influence of Community and Traditional Knowledge on the Assessment 7.408
7.7.3 Aboriginal Cultural Activities and Special Places 7.408
7.7.3.1 Legislative Requirements and other Guidance 7.408
7.7.3.2 Key Indicators and Measurable Parameters for Aboriginal Cultural Activities and Special Places ... 7.410
7.7.3.3 Effects Mechanisms 7.411
7.7.3.4 Assessment Methods 7.411
7.7.3.4.1 Assumptions and the Conservative Approach 7.412
7.7.3.5 Effects Analysis 7.413
7.7.3.5.1 Effect on Spiritual Sites 7.416
7.7.3.5.2 Effect on Trails and Camps 7.417
7.7.3.5.2.1 Trails 7.417
7.7.3.5.2.2 Cabins/Camps 7.417
7.7.3.5.3 Effect on Cultural Activities 7.418
7.7.3.5.4 Effect on Archaeological Sites 7.418
7.7.3.6 Effects Mitigation or Enhancement 7.419
7.7.3.7 Residual Effects on Aboriginal Cultural Activities and Special Places 7.420
7.7.3.8 Significance of Residual Effects on Traditional Use of Lands and Resources 7.421
7.7.3.9 Follow-up and Monitoring Program for Aboriginal Cultural Activities and Special Places 7.425
7.7.3.9.1 Preliminary Monitoring Program 7.425
7.7.3.10 Influence of Community and Traditional Knowledge on the Assessment 7.425
7.8 Summary of Residual Effects and Significance 7.425
7.9 References 7.432
APPENDIX 7-1 IRC-1 Response 7.444

8.0 ACCIDENTS AND MALFUNCTIONS AND WORKER SAFETY……8.1

8.1 Effects of Accidents and Malfunctions 8.1

8.1.1 Approach 8.1

8.1.2 Hazard Identification 8.1

8.1.3 Emergency Response and Spill Prevention / Contingency (ERSPC) Plan 8.2

8.1.4 Structural Failures 8.3

8.1.4.1 Open Pit Slope Failure 8.3

Potential Effects 8.4

Mitigation by Design and Operational Safeguards 8.4

Contingency and Emergency Response Procedures 8.5

8.1.4.2 Tailings Management Facility Embankment Failure 8.5

Potential Environmental Effects 8.6

Worst Case Dam Failure Assessment 8.6

Mitigation by Design and Operational Safeguards 8.7

Contingency and Emergency Response Procedures 8.7

8.1.4.3 MRMF Slope Failure 8.8

Potential Environmental Concerns 8.8

Mitigation by Design and Operational Safeguards 8.8

Contingency and Emergency Response Procedures 8.8

8.1.4.4 Overburden/Topsoil Stockpile Slope Failure 8.9

Potential Environmental Concerns 8.9

Mitigation by Design and Operational Safeguards 8.9

Contingency and Emergency Response Procedures 8.9

8.1.5 Accidents 8.9

8.1.5.1 Explosives Accident 8.9

Potential Environmental Effects 8.10

Mitigation by Design and Operational Safeguards 8.10

Contingency and Emergency Response Procedures 8.10
8.1.5.2 Tailings Pipeline Failure 8.10
Mitigation by Design and Operational Safeguards 8.11
Contingency and Emergency Response Procedures 8.11
8.1.5.3 Water Pipeline Failure 8.12
Potential Environmental Effects 8.12
Mitigation by Design and Operational Safeguards 8.12
Contingency and Emergency Response Procedures 8.13
8.1.5.4 Fuel Transport, Transfer and Storage 8.13
Potential Environmental Effects 8.13
Mitigation by Design and Operational Safeguards 8.13
Contingency and Emergency Response Procedures 8.14
8.1.5.5 Reagent Transport, Transfer and Storage 8.14
Mitigation by Design and Operational Safeguards 8.14
Hydrochloric Acid (36-38% Solution) 8.15
Sodium Hydroxide (30% Solution) 8.16
Sodium Cyanide (solid briquettes) 8.17
Solid Reagents 8.19
8.1.5.6 Chemical Spill within Containment Areas 8.20
Potential Environmental Effects 8.20
Mitigation by Design and Operational Safeguards 8.20
Contingency and Emergency Response Procedures 8.21
8.1.6 Other Malfunctions 8.21
8.1.6.1 Project Related Fires 8.21
Potential Environmental Effects 8.21
Mitigation by Design and Operational Safeguards 8.21
8.1.7 Significance Assessment 8.22
8.2 Worker Safety 8.25

8.2.1 Legislative Requirements and other Guidance 8.25
8.2.2 Key Indicators and Measurable Parameters Worker Safety 8.26
8.2.3 Effects Mechanisms..... 8.27
8.2.4 Assessment Methods 8.27
8.2.5 Effects Analysis 8.27
8.2.5.1 Types of Workplace Hazards..... 8.27
8.2.5.2 Ontario Mining Industry Safety Record 8.28
8.2.6 Effects Mitigation or Enhancement 8.28
8.2.7 Residual Effects on Worker Safety 8.29
8.3 References 8.29

9.0 EFFECTS OF THE ENVIRONMENT ON THE PROJECT 9.1
9.1 Potential Effects of Flooding or Drought 9.1
9.2 Potential Effects of Larger Temperature Fluctuations..... 9.4
9.2.1 Warmer Temperatures..... 9.4
9.3 Storms 9.7
9.4 Seismic Activity..... 9.11
9.5 Implications of Climatic Change Trends..... 9.13
9.6 References 9.16

10.0 HUMAN HEALTH..... 10.1
I. Introduction..... 10.1
II. Preamble 10.1
III. IRC-4 Response 10.2
1. Effects on Indigenous Peoples – Baseline Health Conditions..... 10.2
2. Documenting Efforts to Gather Baseline Health Conditions of Indigenous Peoples in the Areas 10.2
3. Description of How General Health Conditions Were Used in Assessing Significance of Residual Effects on Human Health..... 10.3
10.1 Legislative Requirements and other Guidance 10.4
10.2 Key Indicators and Measurable Parameters for Human Health..... 10.10
10.3 Effects Mechanisms..... 10.10
10.4 Assessment Methods..... 10.11

10.4.1 Assumptions and the Conservative Approach 10.14
10.5 Effects Analysis 10.15
10.6 Effects Mitigation or Enhancement 10.17
10.7 Residual Effects on Human Health 10.17
10.8 Significance of Residual Effects on Human Health 10.17
10.9 Follow-up and Monitoring Program for Human Health 10.21
10.10 References 10.22

11.0 CUMULATIVE EFFECTS 11.1
11.1 Preamble 11.1
11.2 Introduction 11.2
11.3 Context for the Cumulative Assessment 11.2
11.3.1 Description of Existing Conditions 11.2
11.3.2 VCs Identified for the Magino Project Environmental Assessment 11.2
11.3.2.1 Spatial Boundaries for the Magino Project Effects Assessment 11.7
11.3.2.2 Temporal Boundaries for the Magino Project 11.7
11.4 Cumulative Effects Assessment 11.9
11.4.1 Types of Cumulative Effects 11.9
11.4.2 Cumulative Effects Assessment Methodology 11.9
11.4.3 SCOPING of VCs for Cumulative Effects Assessment 11.10
11.4.3.1 Criteria for Determining Whether VC should be carried forward to Step 2 ..... 11.10
11.4.3.1.1 Guidelines for the Preparation of an Environmental Impact Statement for the Magino Gold Project (November 2013) and CEAA Operational Policy Guidance 11.10
11.4.3.1.2 Aboriginal Consultations and Aboriginal Interests 11.12
11.4.3.1.3 Community Consultation 11.16
11.4.3.1.4 Screening based on Possible Pathways for Cause of Cumulative Effects 11.17
11.4.3.1.5 Other Considerations for Cumulative Effects 22
11.4.3.1.6 Outcome of VCs Screening 22

11.4.3.2 Determining Spatial Boundaries....11.38
11.4.3.2.1 VC-Centered Spatial Boundaries....11.38
11.4.3.2.2 Greenhouse Gases (GHG)....11.38
11.4.3.2.3 Biological VCs....11.38
11.4.3.3 Temporal Boundaries....11.39
11.4.4 Examining Physical Activities That Have Been or Will Be Carried Out....11.43
11.4.4.1 Past Activities....11.43
11.4.4.2 Description of Current Economic Activities within PSA, LSA and RSA....11.45
11.4.4.2.1 Mining....11.45
11.4.4.2.2 Forestry....11.49
11.4.4.2.3 Commercial Tourism and Recreation....11.50
11.4.4.2.4 Commercial Trapping....11.50
11.4.4.2.5 Parks and Protected Areas....11.50
11.4.4.2.6 Other Land Uses....11.54
11.4.4.2.7 List of Existing Activities within RSA and Potential for Cumulative Effects....11.54
11.4.4.3 Identification of Future Activities with Potential Project Interactions....11.61
11.4.4.4 List of Current and Future Activities Carried Forward for Cumulative Effects Assessment....11.62
11.5 STEP 2 – ANALYSIS....11.64
11.5.1 Additive or Synergetic Effects of Past and Current Activities within the RSA....11.64
11.5.1.1 Past Activities....11.64
11.5.1.2 Current and Ongoing Activities....11.64
11.5.1.3 Future Activities....11.65
11.5.1.3.1 Algoma Power System Inc....11.65
11.5.1.3.2 Forest Management Units....11.65
11.5.2 Matrix of Interaction for Current and Future Activities with the Magino Project....11.65
11.5.3 Availability of Data and Information for Identification of Cumulative Effects....11.68
11.5.3.1 Description of Existing Conditions within RSA, LSA and PSA....11.68
11.5.3.2 Overview of Terrestrial Vegetation within RSA....11.68

11.5.3.3 Overview of Wetlands within RSA 11.71
11.5.3.4 Overview of Significant Wildlife Habitat within RSA 11.73
11.5.3.5 Overview of Migrating and Breeding Birds within RSA 11.74
11.5.3.5.1 Raptors 11.75
11.5.3.5.2 Passerines and Other Upland Nesting Birds 11.76
11.5.3.5.3 Marsh Birds 11.76
11.5.3.5.4 Waterfowl 11.77
11.5.3.6 Overview of Mammals within RSA 11.78
11.5.3.6.1 Beaver 11.79
11.5.3.6.2 Moose 11.79
11.5.3.6.3 Black Bear 11.80
11.5.3.6.4 Marten 11.80
11.5.3.6.5 Red Fox 11.81
11.5.3.6.6 Wolf 11.81
11.5.3.6.7 Lynx 11.81
11.5.3.6.8 Red Squirrel 11.82
11.5.3.6.9 Snowshoe Hare 11.82
11.5.3.6.10 Star-nosed Mole 11.82
11.5.3.6.11 Bats 11.82
11.5.3.7 Overview of Species at Risk within RSA 11.83
11.5.3.7.1 Whip-Poor-Will 11.83
11.5.3.7.2 Common Nighthawk 11.84
11.5.3.7.3 Olive-sided Flycatcher 11.84
11.5.3.7.4 Bald Eagle 11.84
11.5.3.7.5 Canada Warbler 11.85
11.5.3.7.6 Chimney Swift 11.85
11.5.3.7.7 Northern Long-Eared Bat 11.85
11.5.3.7.8 Little Brown Bat 11.85
11.5.4 Cumulative Effects Assessment 11.86
11.5.4.1 Cumulative Effects of Greenhouse Gas Emissions 11.88
11.5.4.1.1 Significance of Current and Future GHG Emissions 11.88
11.5.4.2 Cumulative Effects on Biological VECs within RSA 11.88

11.5.4.2.1 Type of Cumulative Effects 11.89
Cumulative Effects Mechanism 11.89
Assumptions and the Conservative Approach 11.89
11.5.4.2.2 Cumulative Effects Analysis – Terrestrial Vegetation 11.90
11.5.4.2.3 Cumulative Effects Analysis – Wetlands 11.97
Removal of Organic/Peat Accumulating and Mineral Wetlands 11.99
11.5.4.2.4 Cumulative Effects Analysis – Significant Wildlife Habitat 11.101
11.5.4.2.5 Cumulative Effects Analysis – Migratory and Breeding Birds 11.112
11.5.5 Addressing Uncertainty of Prediction for Cumulative Effects 11.122
11.6 Step 3 - Mitigation 11.122
11.6.1 Mitigation Targeting Future Forestry Operation 11.122
11.6.2 Other Industrial Projects 11.123
11.6.3 Aboriginal Interest 11.123
Step 4 – Significance of Cumulative Effects 11.123
11.7 Step 5 – Follow-up 11.123
11.8 References 11.125
Appendix 11-1: Description of Past and Current Actions 11.126
Existing Transportation Network 11.126
Abandoned Forestry Operation 11.126
Abandoned Mines 11.127
Existing Mineral Exploration 11.127
Existing Mines and Mills 11.129
Existing Forestry Facilities and Harvesting 11.132
Existing Power Generation Facilities 11.134
Existing Power, Oil and Gas Transmission Facilities 11.135
Appendix 11-2: Brief Description of Future Actions 11.136
Planned Community Development 11.136
Transportation Network Improvements 11.136
Planned Forestry Facilities and Harvesting 11.137
Reasonably Foreseeable Projects and Activities 11.137
Proposed Mines and Mills 11.137

Proposed Power, Oil and Gas Transmission Facilities 11.138

12.0 ABORIGINAL ENGAGEMENT 12.1

I. Preamble 12.1

II. IRC-2 Response 12.2

1. Introduction 12.2

1.1 Structure 12.2

1.2 Overview of Prodigy's Response to IRC-2 ..... 12.2

2. Indigenous Engagement – Missing Documentation on Effects, Issues and Concerns 12.5

3. How Comments of Indigenous Groups Have Been Addressed and How the Comments Informed Analysis of Project's Effects 12.7

3.1 Overview 12.7

3.2 Choice of Valued Components 12.7

3.3 Changes in Project Design 12.11

3.3.1 Changes to the Mine Footprint 12.11

3.3.2 Changes to Water Discharge Design 12.12

3.3.3 Changes to the Tailings Management 12.12

3.4 Identification of Mitigation Measures 12.12

3.5 Residual Effects and Significance Conclusions 12.15

3.5.1 Atmospheric Environment (Section 7.2 of EIS) 12.15

3.5.2 Physical Environment (Section 7.3 of EIS) 12.16

3.5.3 Biological Environment (Section 7.4 of EIS) 12.18

3.5.4 Social and Economic Environments (Sections 7.5 & 7.6 of EIS) 12.20

3.5.5 Aboriginal Interests (Section 7.7 of EIS) 12.21

3.6 Consideration of Aboriginal Comments in Assessment of Significance of Residual Effects 12.22

3.7 Consideration of Comments from Aboriginal Groups in the Cumulative Effects Analysis 12.23

3.8 Impacts on Aboriginal and Treaty Rights 12.23

12.1 Introduction 12.24

12.2 Identification of Aboriginal Groups Engaged 12.24

12.3 Aboriginal Engagement Approach 12.24

12.3.1 Traditional Knowledge Studies/Traditional Land Use Studies 12.25
12.3.2 Agreements with Aboriginal Groups 12.26
12.3.3 Aboriginal Engagement Techniques 12.26
12.3.3.1 Meetings with Chief and Council/Leadership 12.26
12.3.3.2 Guided Site Tours 12.26
12.3.3.3 Annual Gatherings and General Membership Meetings 12.27
12.3.3.4 Community Open Houses 12.27
12.3.3.5 Interviews with Aboriginal Leadership/Membership 12.27
12.3.3.6 Argonaut Gold Website 12.27
12.3.4 Aboriginal Engagement Materials 12.27
12.3.5 Aboriginal Notification Techniques 12.28
12.3.5.1 Notification posters 12.28
12.3.5.2 Letters and emails 12.28
12.3.5.3 Radio advertisements 12.29
12.3.5.4 Newsprint advertisements 12.29
12.3.5.5 Websites and Social Media 12.29
12.3.6 Chronological Summary of Aboriginal Engagement to Date 12.29
12.3.6.1 Michipicoten First Nation 12.29
12.3.6.2 Missanabie Cree First Nation 12.57
12.3.6.3 Métis Nation of Ontario 12.88
12.3.6.4 Batchewana First Nation 12.103
12.3.6.5 Red Sky Métis Independent Nation 12.110
12.3.6.6 Garden River First Nation 12.117
12.3.6.7 Pic Mobert First Nation 12.118
12.4 Proposed Future Engagement Activities 12.120
12.5 Key Comments and Questions Raised During Aboriginal Engagement 12.121
12.5.1 Michipicoten First Nation 12.121
12.5.2 Missanabie Cree First Nation 12.133
12.5.3 Métis Nation of Ontario 12.148
12.5.4 Batchewana First Nation 12.156
12.5.5 Red Sky Métis Independent Nation 12.165
12.6 References 12.175

APPENDIX 12-1: Record of Communication – Aboriginal Groups 12.177
Section 1: Detailed Chronology of Aboriginal Engagement 12.177
1.1 Michipicoten First Nation – Record of Engagement 12.178
1.2 Missanabie Cree First Nation – Record of Engagement 12.223
1.3 Métis Nation of Ontario – Record of Engagement 12.271
1.4 Batchewana First Nation – Record of Engagement 12.308
1.5 Red Sky Métis Independent Nation – Record of Engagement 12.324
1.6 Garden River First Nation – Record of Engagement 12.337
1.7 Pic Mobert First Nation – Record of Engagement 12.340
Section 2: Selected Aboriginal Engagement Materials 12.343
2.1 Michipicoten First Nation – Engagement Materials 12.343
2.2 Missanabie Cree First Nation – Engagement Materials 12.344
2.3 Métis Nation of Ontario – Engagement Materials 12.345
2.4 Batchewana First Nation – Engagement Materials 12.346
2.5 Red Sky Métis Independent Nation – Engagement Materials 12.347
2.6 Garden River First Nation – Engagement Materials 12.348
2.7 Pic Mobert First Nation – Engagement Materials 12.348
APPENDIX 12-2: Aboriginal Engagement Materials 12.349

13.0 PUBLIC CONSULTATION 13.1
I. Preamble 13.1
13.1 Introduction 13.2
13.2 Identification of Parties Consulted 13.2
13.3 Public Consultation Approach 13.2
13.3.1 Public Consultation Techniques 13.2
13.3.1.1 Community Open Houses 13.2
13.3.1.2 Meetings 13.3
13.3.1.3 Prodigy Website 13.3
13.3.2 Public Consultation Materials 13.3
13.3.3 Public Notifications 13.4
13.3.3.1 Notification Posters 13.4
13.3.3.2 Radio Advertisements 13.4
13.3.3.3 Newsprint Advertisements 13.4
13.3.3.4 Letters and e-mails to Identified Parties 13.5
13.3.3.5 Websites/Social Media 13.5

13.3.4 Chronological Summary of Public Consultation 13.5
13.3.4.1 Dubreuilville 13.5
13.3.4.2 Wawa 13.6
13.3.4.3 White River 13.7
13.3.4.4 Other Interested Parties 13.8
13.4 Proposed Future Public Consultation Activities 13.9
13.5 Key Comments and Questions Made During Public Consultation 13.9
13.6 References 13.16
APPENDIX 13-1: RECORD OF COMMUNICATION – PUBLIC 13.17
Section 1: Detailed Chronology of Public Consultation 13.17
1.1 Township of Dubreuilville – Record of Communications 13.17
1.2 Municipality of Wawa – Record of Communications 13.26
1.3 Township of White River – Record of Communications 13.32
1.4 Other Interested Parties – Record of Communications 13.35
Section 2: Public Consultation Materials 13.40
2.1 2012 Public Consultation Materials 13.40
2.2 2013 Public Consultation Materials 13.40
2.3 2014 Public Consultation Materials 13.40
2.4 2016 Public Consultation Materials 13.41
APPENDIX 13-2 Public Communication Materials 13.42

14.0 BENEFITS TO ONTARIO AND CANADA 14
Supporting a Sustainable Mining Industry in Ontario and Canada 14.1
Supporting Sustainable Development through Project Closure Planning 14.1
Economic Benefits to Ontario 14.2
Economic Benefits to Canada 14.3
References 14.5

15.0 ADDITIONAL ENVIRONMENTAL APPROVALS 15
Section 5(2) Effects 15.1
15.1.1. Migratory Birds Convention Act 15.1
15.1.2. Explosives Act 15.1
15.1.3. Fisheries Act and MMER Schedule 2 Authorizations 15.2
15.1.4. Transboundary or Changes on Federal Lands 15.7
15.1.5. Potential Effects on Aboriginal Peoples 15.7

15.1.6. Effects of Changes to the Environment that are Directly Linked or Necessarily Incidental to Federal Decisions 15.8
Approvals and Authorizations 15.8
References 15.11

16.0 SUMMARY AND CONCLUSIONS 16
16.1 Summary of Environmental Effects 16.1
16.2 Project Implications for Aboriginal and Treaty Rights 16.2
16.2.1 Aboriginal Groups Potentially Affected by the Project 16.2
16.2.2 History of Industrial and Other Human Activities 16.3
16.2.3 Aboriginal Engagement in EIS Process 16.3
16.2.4 Aboriginal Interests Effects Assessment 16.4
16.2.5 Conclusion 16.6
