Indicated that this timing was appropriate due to holidays.	Aboriginal Consultation	December 8, 2014: Melina emailed Shell indicating that they had hoped to meet with us prior to the JRP comments being due on December 15, 2014. Also attached a memo prepared by the Firelight Group on behalf of ML 1909 ("Gaps in TLU and TK Information in Relation to the Proposed Shell Pierre River Mine") that outlines ML 1909 members' interests in relation to the proposed PRM Project. December 10, 2014: Jennifer emailed Melina and shared the context of Shell's response that will be provided to the JRP: "Shell's response on December 15th will state that at this time, Shell feels it is premature to hold a pre-hearing prior to working through the process that is currently underway as it may result in unnecessary use of resources to address issues that the various groups may be able to resolve on their own. We have just initiated consultation efforts with respect to Aboriginal culture and heritage as well as the terrestrial Regional Study Area ("RSA"), and these discussions will continue into Q1 of 2015. We will be asking that the JRP delay their decision as to whether a pre-hearing is necessary until these engagements take place. By early March 2015, Shell will advise the JRP of any outstanding concerns or issues with regards to methodologies used for culture and heritage effects assessment and terrestrial RSA sizing following its engagement process. These specific issues could then form the agenda for the pre-hearing meeting in April 2015, if such a meeting is necessary." December 15, 2014: Melina emailed thanking Shell for the information and proposing a conference call be scheduled for January 7, 2015. December 16, 2014: Shell emailed to confirm the meeting date and time.
