**Subject:** Shell's Consultation Record December 2013 to January 2014

Hello Ms. Hafso:

Attached is Shell Canada's **Consultation Report** for the period **December 2013 to January 2014** (with some information from February 2014), as stipulated on November 28, 2007 from Alberta Environment as per the cover letter in the Terms of Reference for the **Jackpine Mine Expansion** and **Pierre River Mine** projects. I have also attached a revised version of the July 2013 to November 2013 record of consultation, with some additional information that was not included in the original version.

Please note, Shell has confirmed previously with Alberta Environment that the consultation reports will continue to be filed with regulators in the current format and bi-monthly frequency until such time the Approval Director is able to determine that the consultation activities are adequate for these Projects.

This report is forwarded to provincial and federal regulatory agencies (Major Projects Management Office, Department of Fisheries and Oceans, Canadian Environmental Assessment Agency, and the Energy Resources Conservation Board) to help maintain their records of Shell's consultation activities. We have also sent a consultation summary to individual stakeholder groups showing specific consultations that took place between Shell and their community for this period.

Jill – Please post this report on the Pierre River Mine CEAR 59539, and on the Jackpine Mine Expansion CEAR 59540 (I understand this file may be closed, however, with the project under judicial review, it may be worth keeping the record up to date).

If you any questions, please let me know.

Gary Millard  
Approvals Project Lead, Heavy Oil
