December 7, 2012

**TO: ALL HEARING PARTICIPANTS**

**Re: Jackpine Mine Expansion Project (the "Project")  
CEAR Reference Number 10-05-59540  
ERCB Application No. 1554388**

The Secretariat is in the process of posting to the Registry the undertaking responses that were originally provided by Canada on November 21, 2012. As I indicated at the close of the hearing, the Secretariat would like to be able to confirm the final date on which evidence or argument was filed in the hearing so that anyone intending to file a local intervener's cost claim has certainty about the deadline for doing so. If you are or your client is a hearing participant who has either not yet provided a response to an undertaking or has not yet received an undertaking response that is owing, would you please contact me and the other hearing participant concerned to discuss satisfying the obligation. If there are any outstanding undertakings I would like to be in a position to advise the Joint Review Panel on when responses are expected to be provided.

~~Yours truly,~~

<original signed by>

~~Gary Perkins~~  
Counsel to the Joint Review Panel
