Dear Ms. Wheaton and Ms. Bjornson:

**RE: Joint Review Panel Hearing for Teck Resource Limited Proposed  
Frontier Oil Sands Mine Project Environmental Enhancement Protection  
Act Application File No. 001-00247548 and Water Act File No. 00303079**

### Background

This ACO Hearing Report was prepared in accordance with the Aboriginal Consultation Office's (ACO) role at Joint Review Panel (JRP) Hearing established through *Energy Ministerial Order 105/2014*, *Environment and Sustainable Resource Development Ministerial Order 53/2014* (October 31, 2014), and the *Joint Operating Procedures for First Nations Consultation on Energy Resource Activities* (June 10, 2015).

In the September 19, 2018 letter, the ACO informed the Joint Review Panel that although the ACO does not currently require consultation with Deninu Kue First Nation on the proposed Teck Resource Limited Frontier Oil Sands Mine Project (The Project), the ACO would attend the hearing of Deninu Kue First Nation evidence.

The purpose of the ACO's attendance was to observe the hearing, consider all relevant evidence submitted during the hearing, and address adequacy of consultation and whether actions may be required to address potential adverse impacts on Treaty rights and traditional uses from the Project associated with *Environmental Enhancement Protection Act (EPEA) File No. 001-00247548 and Water Act (WA) File No. 00303079*.

### **First Nation Consultation**

The ACO attended the Hearing and heard the evidence of Deninu Kue First Nation (DKFN). The ACO finds that DKFN provided no evidence of adverse impacts attributable to land and resource management decisions by Alberta in connection with the Project. Further to the ACO's letter to the Panel of September 19, 2018, the ACO advises the Alberta Energy Regulator that consultation is not currently required with Deninu Kue First Nation and that has not changed.

This ACO Hearing Report concludes the ACO's involvement with proposed Project EPEA Application No. 001-00247548 and WA File No. 00303079. As per the Alberta consultation policy, guidelines and procedures, Alberta relies on project proponents and regulatory tribunals to assist in meeting consultation obligations should they arise.

Sincerely,
