Trans Mountain Expansion Project (Project)**

Supplemental Application to Participate (ATP) process

Trans Mountain has proposed a new preferred corridor from Burnaby Terminal to the Westridge Marine Terminal, through Burnaby Mountain. The original ATP process for this Project did not contemplate this new preferred corridor through Burnaby Mountain.

The National Energy Board (Board) is opening a supplemental ATP process. The supplemental ATP process is meant **for those who may be directly affected by, or who may have relevant information or expertise related to, the new preferred corridor only.**

Those who wish to participate in the Board's hearing must apply to participate. **Applications are due on or before noon on 24 September 2014.**

Existing participants need not apply again. Commenters may comment on, and intervenors may ask questions/file evidence/present argument on, any component of the Project, including the Burnaby Mountain section.

The easiest way to submit this ATP form is to complete and submit it online. You will also be able to effect service immediately by submitting the form online. To continue to the secure login and complete your ATP form online click here:
