Table of Contents

	Page
Table of Contents.....	i
List of Tables	iv
List of Figures	xi
List of Appendices	xvii
1.0 INTRODUCTION.....	19
1.1 Project Terms of Reference and Assessment Approach.....	19
1.1.1 AER TOR	19
1.1.2 CEAA Guidelines.....	20
1.1.3 Assessment Approach.....	22
1.2 Project Location.....	22
1.2.1 Project Description.....	22
1.2.2 Local Study Area.....	23
1.2.3 Regional Study Areas	23
1.3 Environmental Setting Overview	24
1.4 Regulatory and Policy Framework	26
1.4.1 Wildlife Legislation, Standards and Guidelines.....	26
1.4.2 Species of Conservation Concern.....	28
1.4.3 Land Management Plans.....	31
2.0 BASELINE WILDLIFE SURVEYS	31
2.1 Wildlife Habitat Delineation	31
2.2 Review of Existing Information.....	32
2.2.1 North American Breeding Bird Survey.....	32
2.2.2 Fish and Wildlife Management Information System	32
2.2.3 Alberta Conservation Association Aerial Ungulate Surveys.....	33
2.2.4 Committee on the Status of Endangered Wildlife in Canada.....	33
2.2.5 Federal Recovery Strategies for Species at Risk.....	33
2.2.6 Published Species Habitat use Accounts and Distribution Maps.....	33
2.2.7 Hunting and Trapping	33
2.2.8 Traditional Use Reports	34
2.3 Methods.....	36
2.3.1 Amphibian Survey	38
2.3.2 Breeding Songbird Survey	39

2.3.3	Owl Surveys.....	40
2.3.4	Bat Survey	44
2.3.5	Wildlife Camera Trapping.....	45
2.3.6	Winter Tracking Survey	47
2.3.7	Pellet Count Survey	48
2.3.8	Incidental Wildlife Observations	49
2.3.9	Wildlife Biodiversity.....	50
2.3.10	Wildlife Research Permits.....	50
2.4	Baseline Wildlife and Wildlife Habitat.....	51
2.4.1	Habitat Availability	51
2.4.2	Wildlife Species of Concern.....	54
2.4.3	Wildlife Occurrence and Habitat Use	59
2.4.4	Hunting and Trapping	155
2.4.5	Overland Conveyor Wildlife Use Survey.....	157
3.0	WILDLIFE ASSESSMENT	160
3.1	Key Wildlife Issues	160
3.1.1	Habitat Availability	161
3.1.2	Habitat Fragmentation and Connectivity.....	162
3.1.3	Wildlife Mortality Risk and Health.....	163
3.1.4	Wildlife Abundance.....	164
3.2	Approach to Effects Assessment	164
3.2.1	Assessment Boundaries.....	164
3.2.2	Effects Assessment Scenarios	165
3.2.3	Valued Components	166
3.2.4	Evaluation Criteria for Environmental Effects.....	170
3.2.5	Assessment Techniques.....	172
4.0	BASELINE CASE ASSESSMENT.....	181
4.1	Wildlife Health.....	181
4.2	Wildlife Habitat.....	182
4.2.1	Wildlife Local Study Area.....	182
4.2.2	Regional Study Areas	183
4.2.3	Critical Habitat for Species at Risk	186
4.3	Wildlife Diversity.....	186
4.4	Valued Components.....	191
4.4.1	Columbia Spotted Frog	192
4.4.2	Western Toad.....	195

4.4.3	Olive-sided Flycatcher.....	197
4.4.4	Great Grey Owl.....	199
4.4.5	Little Brown Myotis.....	200
4.4.6	American Marten.....	203
4.4.7	Canada Lynx.....	205
4.4.8	Grizzly Bear.....	209
4.4.9	Moose.....	216
4.4.10	Elk.....	220
4.5	Special Status Species.....	224
4.5.1	Barn Swallow.....	224
4.5.2	Common Nighthawk.....	226
4.5.3	Short-eared Owl.....	227
4.5.4	Bald Eagle.....	228
4.5.5	Golden Eagle.....	229
4.5.6	Mountain Goats.....	230
4.5.7	Bighorn Sheep.....	231
4.5.8	Wolverine.....	233
4.6	Migratory Birds.....	235
5.0	APPLICATION CASE ASSESSMENT.....	238
5.1	Changes in Wildlife Habitat.....	238
5.2	Changes in Wildlife Diversity.....	242
5.3	Wildlife Valued Components.....	244
5.3.1	Columbia Spotted Frog.....	244
5.3.2	Western Toad.....	247
5.3.3	Olive-sided Flycatcher.....	250
5.3.4	Great Grey Owl.....	253
5.3.5	Little Brown Myotis.....	256
5.3.6	American Marten.....	258
5.3.7	Canada Lynx.....	261
5.3.8	Grizzly Bear.....	264
5.3.9	Moose.....	273
5.3.10	Elk.....	280
5.3.11	Summary of Application Case Residual Effects for Valued Components.....	287
5.4	Special Status Wildlife Species.....	292
5.4.1	Barn Swallow.....	292
5.4.2	Common Nighthawk.....	293

5.4.3	Short-eared Owl	294
5.4.4	Bald Eagle.....	295
5.4.5	Golden Eagle.....	296
5.4.6	Mountain Goats.....	297
5.4.7	Bighorn Sheep.....	297
5.4.8	Wolverine	298
5.4.9	Summary	299
5.5	Migratory Birds.....	301
5.5.1	Change in Habitat Availability	301
5.5.2	Habitat Fragmentation and Connectivity.....	303
5.5.3	Change in Mortality Risk and Health	303
5.5.4	Abundance	304
5.6	Traditional Resource Use.....	305
5.6.1	Change in Access.....	305
5.6.2	Change in Distribution and Abundance of Key Hunted Species.....	305
6.0	PLANNED DEVELOPMENT CASE.....	306
6.1	Developments and Activities Included in Cumulative Effects Assessment	306
6.2	Other Future Factors and Activities.....	310
6.2.1	Climate Change	310
6.2.2	Wildfires	311
6.2.3	Land Use and Recreational Activities	311
6.3	Cumulative Effects Assessment.....	311
6.3.1	VC Selection.....	311
6.3.2	Olive-sided Flycatcher.....	315
6.3.3	Little Brown Myotis	316
6.3.4	American Marten	318
6.3.5	Canada Lynx.....	320
6.3.6	Grizzly Bear.....	323
6.4	Summary of Cumulative Effects.....	325
7.0	WILDLIFE MITIGATION AND MONITORING.....	328
7.1	Wildlife Mitigation Measures	328
7.1.1	Species at Risk.....	328
7.1.2	Migratory Birds	328
7.1.3	Habitat Availability	329
7.1.4	Habitat Connectivity and Movement.....	331
7.1.5	Mortality Risk	334

7.2	Preliminary Wildlife Monitoring Program	336
