Director- Environmental Approvals  
Environmental Assessment and Licensing Branch  
Manitoba Sustainable Development  
1007 Century Street  
Winnipeg, MB R3H 0W4

Dear Sir/Madam:

Enclosed is Manitoba Infrastructure's application (two paper copies and one electric copy) to Manitoba Sustainable Development for approval to upgrade the winter road to all season road standards. The proposed 19.5 km long Lake St. Martin Access Road outlined in the attached Environmental Assessment Report will follow the winter road and be used in near-term for the ongoing maintenance and potential operation of the existing Lake St. Martin Emergency Outlet Channel, as well as in the construction, operation and maintenance of future flood protection works being planned between Lake St. Martin and Lake Winnipeg.

The enclosed Environmental Assessment Report for the Lake St. Martin Access Road provides the information requested in the Environment Act Proposal Form and documents the environmental assessment activities, including engagement, leading up to this application.

The application fee for submission of this application will be provided through Inter business Journal transfer. Please contact Sheila Gair (204-945-5200; [Sheila.Gair@gov.mb.ca](mailto:Sheila.Gair@gov.mb.ca)) for additional finance information.

If you have any questions, or would like to discuss further, please do not hesitate to contact me at Manitoba Infrastructure (204-479-6025; [Christine.Baljko@gov.mb.ca](mailto:Christine.Baljko@gov.mb.ca)) or Blair McMahan (204-945-2769; [Blair.McMahan@gov.mb.ca](mailto:Blair.McMahan@gov.mb.ca)).

Yours truly,

<Original signed by>

Christine Baljko
