Katherine Wreford  
Canadian Environmental Assessment Agency  
Pacific and Yukon Office  
401 – 701 West Georgia Street  
Vancouver, British Columbia, V7Y 1C6

Dear Ms. Wreford,

**Re: Information Request Regarding the Federal Environmental Assessment of the  
Kwispaa LNG Project**

I am writing to provide the Canadian Environmental Assessment Agency (“CEA Agency”) with an update regarding Kwispaa LNG in response to CEA Agency’s information request letter dated February 27, 2019.

As you are aware, Kwispaa LNG (CF) Limited Partnership (“Kwispaa CF”) notified CEA Agency on February 2019 that it has paused development activities on Kwispaa LNG. During the next number of months, the Kwispaa LNG team is focusing its efforts and determining the next steps for the project. Kwispaa CF understands that CEA Agency has paused its Environmental Assessment at day 75 and requests that the Environmental Assessment remain on pause until Kwispaa CF resumes activities related to the Environmental Assessment.

At this time, we do not have an updated Project Schedule, but anticipate that they delay may be approximately six to twelve months. We will provide further information on the updated Project Schedule as we have further information.

Thank you very much and we look forward to continued engagement when the Kwispaa LNG Project resumes development activities.

Sincerely,  
<Original signed by>

Nigel Kuzemko  
Director  
Steelhead LNG
