

Thank you for the opportunity to provide comment. Based on available information, it appears the proposed gas line would cross the ministry's Highway 11 right-of-way south of Ramore, ON. If this is the case, an Encroachment Permit is required from MTO's Corridor Control section. If you would like additional details on obtaining an Encroachment Permit, please contact the following ministry representative:

Paul Marleau, Senior Project Manager. <contact information removed>

Thanks,

Andrew Healy  
Head, Environmental Section

**Subject:** Gazoduq Project - Provincial Advice Request

**Importance:** High

Sent on behalf of Anjala Puvananathan:

Hello colleagues,

Please find attached a letter and a form from the Impact Assessment Agency of Canada requesting advice on the Gazoduq Project.

I have attached the form separately in Microsoft Word format for your convenience.

The Agency requests your responses by November 12, 2019.

You can find the summary of the Initial Project Description and the complete Initial Project Description on the Canadian Impact Assessment Registry Internet site <https://iaac-aeic.gc.ca/050/evaluations/proj/80264>.

If your staff have questions about completing the attached form, they should contact Jillian Bieser at 647-291-3721 or by email at [IAAC.GazoduqProjectprojetGazoduq@canada.ca](mailto:IAAC.GazoduqProjectprojetGazoduq@canada.ca).

Thanks,

**Anjala Puvananathan, Director, Ontario Region**
