**RE: Suncor Energy Inc.  
Base Mine Extension Project  
Temporary Time Limit Suspension – Planning Phase  
Canadian Impact Assessment Registry File No.: 80521**

Dear Ms. Fedrau:

Suncor submits this letter to the Impact Assessment Agency of Canada (IAAC) requesting a temporary time limit suspension to the planning phase of the Base Mine Extension Project review. Through our consultation work, we have received feedback from several Indigenous Groups of their desire for further engagement with Suncor prior to comments being provided on the draft Tailored Impact Statement Guidelines (TISG). To support fulsome engagement on key issues, Suncor requests an extension to the deadline for submission of responses to the draft TISG to April 30, 2021.

Suncor remains committed to advance the review of this Project in a timely and efficient manner and appreciates the IAAC's efforts to provide an efficient regulatory review process.

If you have any questions regarding this request, please contact the undersigned at <contact information removed>  
or Richard Murray at <contact information removed> .

Sincerely,

<Original signed by>
