

## Regional Assessment of the St. Lawrence River Area Expression of Interest Form – Expert Support(s)

<b>Name(s):</b>
<b>Organization/Community:</b>
<b>Email:</b>
<b>Phone:</b>

The current proposed geographic boundary for the RA includes the St. Lawrence River from the Ontario-Quebec border (Quebec side only) to the Lower Estuary (Pointe-des-Monts), including the Saguenay River (see the Terms of Reference (ToRs)) for a detailed map of the assessment area).

The RA will focus on development activities occurring within the assessment area, and the potential effects of these activities on the assessment priorities identified in the ToRs. The RA will consider the relationship between past, present and future targeted physical activities, complementary activities, and the ecosystems within which they occur, and the effects of those activities, including the potential for cumulative effects.

---

**A.** Expert Supports will provide information and expert advice to the Regional Assessment Working Group (Working Group) on topics relevant to the Regional Assessment.

Please select from the list below, the specific topic(s) that you have relevant information or advice to share. Please select all that apply.

Expertise Topics	Mark “X” to select
<ul style="list-style-type: none"> <li>• Changes to environmental, health, cultural, spiritual, social and economic conditions, including, but not limited to:               <ul style="list-style-type: none"> <li>○ Wildlife and Wildlife Habitat (including species at risk)</li> <li>○ Fish and Fish Habitat (including species at risk)</li> <li>○ Migratory birds</li> </ul> </li> </ul>	
<ul style="list-style-type: none"> <li>○ Wildlife and Wildlife Habitat (including species at risk)</li> </ul>	
<ul style="list-style-type: none"> <li>○ Fish and Fish Habitat (including species at risk)</li> </ul>	
<ul style="list-style-type: none"> <li>○ Migratory birds</li> </ul>	

Regional Assessment in the St. Lawrence River Area – Call for Interest

○ Flora (including species at risk)	
○ Air Quality and Greenhouse Gase Emissions
