Dear Maggi Redmonds, Eon Song and Shelley Kline:

SUBJECT: Acknowledgement of Your Request to Designate the Ontario Line Project under the *Impact Assessment Act*

Thank you for your letter dated January 19, 2021, concerning the Ontario Line Project (the Project) proposed by Metrolinx. You have requested that the Minister of Environment and Climate Change (the Minister) designate the Project under the *Impact Assessment Act* (IAA).

Under subsection 9(1) of IAA the Minister may, by order, designate a physical activity that is not prescribed in the *Physical Activities Regulations*. The Minister may do this, if, in the Minister's opinion, the physical activity may cause adverse effects within federal jurisdiction or adverse direct or incidental effects (resulting from federal decisions), or public concerns related to those effects warrant the designation. In accordance with subsection 9(4) of IAA, the Minister is expected to respond to your request with reasons for their decision by April 19, 2021.

The Impact Assessment Agency of Canada (the Agency) will review information about the Project; any concerns expressed from the public (that the Agency is aware of) and Indigenous groups; and expert advice from federal authorities and input from provincial ministries in order to inform the Minister on whether the Project should be designated. If designated, to proceed with the Project,

Metrolinx would be required to submit an Initial Project Description, thereby commencing the planning phase of IAA. In that case, the planning phase would include the Agency determining whether a federal impact assessment is required
