

Notice of Determination

Richmond, B.C. – 26 April 2021 – Vancouver Airport Authority has determined that the proposed Replacement of BC Hydro Electrical Transformer is not likely to cause significant adverse environmental effects.

Mitigation measures taken into account for this determination include:

- All work to be conducted in compliance with the Vancouver Airport Authority Environmental Construction Standards.
- The contractor must have a Spill Prevention and Response Plan in place prior to the start of work.

Vancouver Airport Authority is satisfied that the carrying out of the project is not likely to cause significant adverse environmental effects.

Therefore, Vancouver Airport Authority will carry out the project, exercise any power, perform any duty or function, or provide financial assistance to enable the project to be carried out in whole or in part.
