Dear Chief Shelly Moore-Frappier:

Subject: Next Steps in the Impact Statement Phase of the Impact Assessment for the Upper Beaver Gold Project

Thank you for your participation in the planning phase of the federal impact assessment for the Upper Beaver Gold Project (the Project), proposed by Agnico Eagle Mines Limited (the Proponent). On April 20, 2022, the Impact Assessment Agency of Canada (the Agency) posted a Notice of Commencement¹ on the Canadian Impact Assessment Registry Internet site (the Registry) and contacted your community by way of email regarding an impact assessment pursuant to the *Impact Assessment Act* (IAA) for the Project. The Project is now in the impact statement phase of the federal impact assessment.

The objectives of this letter are to:

- provide you with updates on the Upper Beaver Gold Project;
- share the Agency's preliminary understanding of the potential adverse impacts of the Project on Temagami First Nation's exercise of rights (Enclosure 1);
- identify the next steps in the impact assessment process and opportunities for Temagami First Nation to meaningfully participate in the impact assessment for the Project (Enclosure 2); and
- demonstrate how comments were incorporated into the finalized Tailored Impact Statement Guidelines (Guidelines) and Indigenous Engagement and Partnership Plan (IEPP) (Enclosure 3).

Updates on the Upper Beaver Gold Project

The Minister of Environment and Climate Change decided on May 26, 2022, not to refer the Project to a review panel under subsection 36(1) of the IAA. The Agency will therefore continue to conduct an Agency-led impact assessment for the Project.

Based on new information from Indigenous communities, the Agency has updated section 4 of the IEPP, which can be found on the Project's Registry page².

Information Available to the Agency with Respect to the Potential Adverse Impacts of the Upper Beaver Gold Project on Temagami First Nation's Exercise of Rights

During the planning phase, the Agency received limited information on the Project's potential to cause adverse impacts on Temagami First Nation's exercise of rights. The information received by the Agency is summarized in Enclosure 1. In order for the Agency to direct the Proponent to adequately follow-up and characterize potential impacts to your community in the Proponent's Impact Statement, please review Enclosure 1 and provide the Agency with any additional information by **February 1, 2023**. This information would also inform the Agency's consultation efforts and understanding of the potential impacts of the Project on your community's exercise of rights.

The Agency acknowledges Temagami First Nation's March 12, 2022 comments (Subject: Response to Indigenous Engagement and Partnership Plan) that included mention of the United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP). The IAA was written with the implementation of UNDRIP in mind by meaningfully involving and partnering with Indigenous peoples during all phases of the impact assessment. Please see the following link for details: Implementing UNDRIP³.

³ <https://www.canada.ca/en/impact-assessment-agency/programs/participation-indigenous-peoples/implementing-united-nations-declaration-rights-indigenous-peoples.html>

Section 3 of the IEPP references the Agency's commitment to ensure consultation is consistent with the Government of Canada's commitment to implement UNDRIP. This involves working together through partnerships, respect and in good faith on decision-making. In addition, the IEPP provides information on how the Agency will be working with Temagami First Nation during the remaining phases of the impact assessment process for the Project.

Consent on key aspects of the impact assessment process

The Agency is working to advance the objectives of UNDRIP which was foundational in the development of the IAA. Under the IAA, the Agency's approach to reconciliation is to aim to secure free, prior and informed consent throughout the impact assessment process for all decisions that affect Indigenous peoples' rights and interests. The approach to achieving free, prior and informed consent is based on mutual respect and meaningful two-way dialogue, and through commitments to work in partnership with Indigenous peoples, as noted in the IEPP for the Project. In the context of impact assessments, the Agency is responsible for ensuring that the views of all potentially impacted Indigenous communities are represented and considered.

Opportunity to meet with the Agency: The Agency would be pleased to meet with your community to discuss the information currently available to the Agency and gather additional information to supplement Enclosure 1. Grant funding, as noted below, can be used to support your community's participation at this meeting as well as for providing any additional information to supplement Enclosure 1. **The Agency will follow-up with your community to confirm whether you are interested in a meeting and to schedule a date and time.**

In addition, please see the Handout on How to Participate during the Federal Impact Assessment Process (Enclosure 2). This document outlines the information, including Indigenous Knowledge, that you may consider sharing with the Proponent and the Agency to inform the development of the Proponent's Impact Statement. Enclosure 2 also identifies areas of interest where Indigenous Knowledge would be helpful in assessing potential effects of the Project and potential impacts on the exercise of rights of Indigenous Peoples.

For further information on how the Agency considered your comments during the planning phase and incorporated them into the Guidelines and IEPP, please see Enclosure 3, Summary Table of Comments.

Funding Program Grants

The Agency is able to offer grant funding to support Temagami First Nation's participation in the impact assessment process for the Project, as we transition from the planning phase to the impact statement phase.

Eligible expenses for these grants would include:

- providing additional information to supplement information available to the Agency in Enclosure 1;
- meeting with the Agency to provide additional information; and,
- establishing a common understanding of next steps for collaboratively assessing impacts on the exercise of rights.

Upon confirmation of your community's interest, a \$10,000 grant will be distributed to you. The Agency will offer additional funding during the impact statement phase to support the continued participation of Temagami First Nation. Further information on participant funding during the impact assessment process can be found on the Agency's website⁴. If you have any additional questions or concerns, please contact Marjolaine Maisonneuve, Funding Officer, at 613-295-5365 or Marjolaine.Maisonneuve@iaac-aeic.gc.ca.

IMPORTANT NOTE: Any information submitted to the Agency to inform this project assessment will be made publicly available as part of the project file, and may be posted online via the Canadian Impact Assessment Registry (Reference #82960) subject to certain exceptions related to privacy, security or confidentiality. The Agency's Submission Policy⁵ describes what submitted information can be shared publicly, and what should remain private. For further information on how we protect your privacy, please refer to the Privacy Notice⁶.

Indigenous Knowledge shared in confidence is protected from disclosure under section 119 of the *Impact Assessment Act* (IAA), except if written consent is provided, or if the information is publicly available. In addition, Indigenous Knowledge shared in confidence could be shared with certain parties if disclosure is necessary for procedural fairness and natural justice or for use in legal proceedings. This ensures that interested persons have a fair opportunity to participate in decision-making processes that may affect their interests, and that they have access to all necessary information and evidence relied on by the decision-maker.

Should you wish to provide any comments or documents that contain confidential or sensitive information that should be protected from release to the public, please contact Spencer Roth at upperbeaver@iaac-aeic.gc.ca or at 647-355-7318 **before** submitting the information. This will ensure that your submission is handled appropriately. Note that the Agency will consult with you prior to disclosing Indigenous Knowledge shared in confidence under an exception.

Commitment to Meaningful Engagement and Consultation

The Agency is committed to undertaking meaningful public engagement and Indigenous consultation. Our current practices, in light of the COVID-19 pandemic, are summarized in Enclosure 4.

While the Agency continues to hold meetings through virtual means, on a case-by-case basis, the Agency may consider requests for in-person meetings, in accordance with public health circumstances and Agency policies.

Please feel free to contact me at upperbeaver@iaac-aeic.gc.ca or by phone at 647-355-7318 if you have any questions. I welcome the opportunity to work collaboratively with your community.

Sincerely,

<original signed by>
