The Project is now in the impact statement phase of the federal impact assessment.

The Agency has also issued the [Tailored Impact Statement Guidelines](#) and the following plans to the Proponent, to guide the development of the Impact Statement for the Project:

- Public Participation Plan
- Indigenous Engagement and Partnership Plan
- Cooperation Plan
- Permitting Plan

These documents are available at the following link: <https://iaac-aeic.gc.ca/050/evaluations/proj/82960>.

In the coming weeks, the Agency will share with you and the proponent a [summary table of comments](#) received during the planning phase with Agency responses; this table will also inform the proponent's work while preparing its Impact Statement.

In addition, your concerns relating to compliance with the *Impact Assessment Act* have been forwarded to the Agency's Compliance Promotion and Enforcement Unit for review.

We look forward to working with your community in the next phases of the impact assessment process.

Best regards,
Spencer
