

Enclosure 2: Comment Table for the Northern Road Link Project - Initial Project Description (IPD)

IPD submitted February 2, 2023 by Webequie First Nation and Marten Falls First Nation (the proponent)

Please use this document to provide comments on the Northern Road Link Project (the Project). The document consists of two tables.

Table 1 will enable you to describe potential project effects.¹ The Impact Assessment Agency of Canada (the Agency) requires detailed advice to inform the Summary of Issues provided to the proponent pursuant to subsection 14(1) of the *Impact Assessment Act* (IAA). Please refer to prompts in the table to guide your responses.

Table 2 will facilitate the collection of general or editorial comments.

Table 1: Description of the potential effects of the Project

Comment ID	Document Reference	Valued Component	Project Component	Description of the Potential Effect (Context and Rationale)	Powers, Duties and Functions	Risk Characterization Rating	Instructions to the Proponent	Summary of the Issue
Please identify comments by organization and comment number.	If the comment is related to a specific section of the documentation, please provide a reference (e.g. title, section, subheading, page number). You may also choose to copy the relevant text here.	Identify the valued component(s)— within the mandate of your department, ministry or agency—to which the effect applies. This may include components of the environment, health, social or economic conditions.	If applicable, please indicate the project component that could cause the described effect. If the effect is linked to a power, duty or function, please identify the project component that would be regulated, monitored, or enabled by the power duty or function.	For each effect within your mandate (one effect per row), please provide the context and rationale. In your response, please respond to following points: <ul style="list-style-type: none"> Describe whether the proponent has adequately articulated the effect. Provide rationale. If an effect that could affect a valued component is not described adequately, explain what is lacking or unclear and describe any possible link between the effect and a project activity or component. Describe whether the proponent has identified and adequately articulated mitigation and/or monitoring measures to address the potential effect. Provide rationale. <ol style="list-style-type: none"> If the proponent has identified mitigation measures, provide your expert opinion of the proposed measures; indicate whether these mitigation measures are well understood and of proven effectiveness. If not, provide advice on how the effect could be managed through well-understood mitigation measures, and identify such measures. Describe whether the proponent has adequately articulated the potential for residual effects after mitigation has been applied. Provide a rationale. If the proponent’s description is inadequate, provide advice on the potential for residual effects. 	Does your department, ministry or agency have powers, duties or functions associated with this effect? If yes: <ul style="list-style-type: none"> Identify the act and associated power, duty or function. Indicate whether the exercise of the associated power, duty or function would <u>mitigate, manage or set conditions</u> that would address the effect 	Based on the information that you have provided, please characterize the risk by selecting a rating (from [1] to [6]) for the effect (See Enclosure 3 for definitions)	Provide a specific, actionable request for the proponent Where applicable, provide instructions for how the proponent would build confidence in the Detailed Project Description and Response to the Summary of Issues to support or confirm the risk rating selected at left.	Where potential effects have been overlooked or are missing or could be better described and presented by the proponent, provide a concise synopsis for the Summary of Issues. Please, where possible, use simple (lay) language in your summary.

Please insert additional rows as necessary.

¹ *effects* in this context means changes to the environment or to health, social or economic conditions and the positive and negative consequences of these changes.
