Development of Impact Assessment Planning Documents

The Agency has developed the draft versions of the Tailored Impact Statement Guidelines (Guidelines) and Indigenous Engagement and Partnership Plan. The draft planning documents were informed by the Proponent's Detailed Project Description¹ and Response to the Summary of Issues², as well as comments received by the Agency from Indigenous communities, federal authorities, provincial ministries and the public during the first comment period on the Project, held from February 21, 2023, to March 23, 2023.

Drafts of the Guidelines (**Enclosure 1**) and the Indigenous Engagement and Partnership Plan (**Enclosure 2**) are enclosed with this letter for your review and consideration, and they are posted on the Canadian Impact Assessment Registry Internet site³ (the Registry), along with comments received to date.

Comment Period and Request for Input

The Agency is conducting a **30-day comment period** on the draft Guidelines and the draft Indigenous Engagement and Partnership Plan from June 21, 2023, to July 21, 2023. Your community is invited to provide input by **July 21, 2023**. Timely submission of comments would inform finalization of the:

- **Tailored Impact Statement Guidelines**, which provide direction to the Proponent on the factors to be considered, the methodologies to be followed, and information requirements in order to guide preparation of the Impact Statement; and
- **Indigenous Engagement and Partnership Plan**, which outlines opportunities and methods for meaningful engagement and consultation with potentially affected Indigenous communities throughout the impact assessment process for the Project.
