# Appendix L. Proposed Issues and Responses Tracking Table for Application/EIS Review

---

Section 23.1 of the Section 11 Order requires Seabridge to respond to issues that are identified in comments submitted by the Nisga'a Nation, First Nations, Métis, government agencies, local governments and the public during the Application/EIS review that the BC EAO considers to be within the scope of the assessment, and within time limits set by the BC EAO. Table L-1 represents the format that Seabridge is proposing to use to track issues and responses. The end column of the table would be completed by the EAO and CEA Agency.
